Welcome to Edinburgh College. We are here to support all of our students with achieving their career goals and ambitions.

We have students from over 120 countries across the world, and from a variety of different backgrounds. If you think you are not a 'typical' college student then think again. We have many students who return to education later in life as well as those who have just left school. College is a place for everyone.

Our courses are created in collaboration with industry, giving you skills and practical experience to ensure you are ready for your next step. You can choose from over 700 courses across 25 different subject areas with full-time, part-time and evening options available that you can fit around your commitments. We also have a range of open learning courses that can be studied from the comfort of your own home.

We have campus open days throughout the year where you can apply for your course and meet teaching and support staff. These events give you an opportunity to see the campus, check out our state-of-the-art facilities and equipment, and get an insight into what it's like to be an Edinburgh College student.

Whatever your reasons are for considering college, our courses can help you achieve your goals and the future you want.

 For more information visit edinburghcollege.ac.uk/welcome

Equality, Diversity and Inclusion

Edinburgh College is committed to equality of opportunity and to a culture that respects difference. We are committed to providing an inclusive ethos and environment, where everyone feels welcome, supported and respected.

We believe that, as an employer and public body, we can play a leading part in the promotion of equality and diversity more widely. We recognise that equality of access to education is crucial in unlocking many significant opportunities in life. We aim to help remove barriers and advance equality for groups who experience disadvantage in our society.

For more information visit  edinburghcollege.ac.uk/equality

We are excited to welcome you to Edinburgh College. Whether you are a new or returning student, we want to ensure you can study with us in a safe, welcoming and accessible way.

Blended Learning

We hope to be able to welcome students to our campuses for Session 2021/22. Throughout the session, your health and safety will be our number one priority, which is why we have introduced blended learning for our courses. This is a way of studying which can combine online learning with on-campus learning. Blended learning enables us to deliver courses in a way which is safe for everybody. You will be told before your course starts whether your course will be delivered online, on-campus or a mixture of both.

Online learning (or virtual learning) might involve tasks completed online in your own time or scheduled classes with your teachers and classmates. On-campus learning might be in workshops, classrooms or specialist studios, depending on your course. Off-campus learning also applies to anyone who might be studying outdoor activities such as childcare or sport, or for anyone doing work placements elsewhere.

If you are completing your course online, you will learn through a variety of sessions which might include online video calls, pre-recorded seminars, podcasts and Q & A sessions. Our lecturers will guide you through and we have everything in place to make sure you can interact with your classmates and your lecturers.

Find out more information:
www.edinburghcollege.ac.uk/newsandevents/what-is-blended-learning/

Learning Platforms

We use a number of online platforms to offer our students the best possible blended learning experience. All students will have access to the platforms and will be given an induction into using the platforms during enrolment.

Safety at our campuses

If your course requires you to come to one of our campuses, we have made changes to all our learning and communal spaces to make sure that you are safe while visiting a campus.

Safety on Campus

Health and safety measures will be in place across all campuses to keep all of our students and staff safe.

If you have been offered a place on a course, we will keep you informed about the latest plans for Session 2021/22 via email.

City Bypass

Dalkeith

You can plan your journey to campus using the Traveline Scotland website here travelinescotland.com/lts/#/travelInfo

For more information about Liftshare visit <https://liftshare.com/uk/community/edinburghcollege>

*You will only be required to travel to campuses when it is safe to do so.

Students, staff and visitors can use our facilities while visiting campuses, to help reach that new fitness goal or get a haircut after classes. The availability of our facilities may be affected by the current government health and safety guidance.

Training Salons

Campus: Granton & Milton Road

Students can book into our modern on-campus hair, beauty and barbering salons at Milton Road and Granton campuses which offer treatments using well-known brands including Elemis, Wella and Dermalogica. Our training salons allow students to practice and gain the valuable skills needed for working in the industry.

To follow us on Facebook visit facebook.com/edinburghcollegehairbeautybarber

For more information visit edinburghcollege.ac.uk/salons

Training Restaurants

Campus: Granton & Milton Road

Dine in one of our training restaurants - The Apprentice (Granton) or eh15 (Milton Road). Try top quality dishes prepared by our trainee chefs before they start working in some of the best restaurants in the country. Support our students with great value meals on campus.

For more information visit edinburghcollege.ac.uk/restaurants

To follow us on Facebook visit facebook.com/eh15restaurantandbar
facebook.com/apprenticeedinburghcollege

Waterfront Nursery

Campus: Granton

The Waterfront Nursery at our Granton Campus provides quality childcare for children from birth to five years.

For more information visit thewaterfrontnursery.co.uk

Gyms

Campus: Granton, Milton Road & Sighthill

We have three fully equipped gyms that can be used by students. At Milton Road you can take advantage of qualified personal trainers, fitness classes and spa facilities at the Club gym and spa.

Sighthill & Granton Gyms

Catering

Campus: All

Coffee shops and canteens are located on every campus. You can grab a quick coffee before class or hang out with friends during lunchtimes and have a bite to eat.

Libraries

Campus: All

There are libraries and resource centres on all campuses, which provide you with the use of PCs and a place to study when at college. Moodle, our virtual learning environment, can be accessed anywhere with internet access.

For more information visit <http://moodle.edinburghcollege.ac.uk/>

College facilities can also be hired for events, meetings and conferences. For more information visit

edinburghcollege.ac.uk/venuehire

WHY CHOOSE EDINBURGH COLLEGE?

When you are thinking about taking your next step in education, you may need to consider where you want to learn. At Edinburgh College we provide a range of options to cater to all needs, whether you are returning to education after a break, looking to get into university or adding to your CV. Here are the reasons why you should learn at Edinburgh College.

*topuniversities.com, 2019

We are based in Scotland's capital city

In 2019, Edinburgh was ranked as the second best student city in the UK, and 15th in the world.* Edinburgh has a large student population as it is home to Edinburgh College as well as four universities. It is a fantastic place to study with lively bars, clubs and restaurants across the city centre.

The city has an amazing variety of visitor activities including historic sites, landmarks and statues, nature and parks, cultural tours, religious sites and places of worship, and many more points of interest for you to explore. You can visit the world famous Edinburgh Castle, or take a walk down the historic cobbled streets of the Old Town.

Throughout the city you can also discover fascinating museums and galleries.

It's a pathway to university

College courses can be a stepping stone to university from school. You can join year 3 of university depending on your HND results.

SWAP courses are designed for adults to get back into education. If you don't feel ready to jump back into essays and exams, SWAP courses are a great option.

 For more information:
edinburghcollege.ac.uk/swap

You can go straight into employment

Foundation Apprenticeships are for S4-S6 school pupils who are still at school. These courses combine school, college and work experience. Modern Apprenticeships combine college learning and employment.

 Find out more about apprenticeships:
edinburghcollege.ac.uk/apprenticeships

Some full-time college courses include placements giving you lots of experience before you graduate.

You can try subjects before you commit

Some courses cover a range of subjects. For instance, Social Science courses incorporate history, geography, sociology and psychology. You can then study your favourite at university.

You can progress in your career

We offer a range of qualifications to help you to progress professionally. For example, if you are a childcare practitioner, with PDA Childhood Practice you could then progress to managerial level. If you work in tech then a qualification in Cisco could help you progress to a new job.

 Find out more about professional courses:
edinburghcollege.ac.uk/Training

Get that higher you never got at school

You can study [National 5, Higher and Advanced Higher courses](#) in a range of subjects. If you need grades to get you into university, or if you want to change career, these courses are useful for your next steps.

 For more information about National 5, Highers and Advanced Highers:
edinburghcollege.ac.uk/Courses/Advanced Higher, Higher and National 5

ACCOMMODATION

Living on campus is the ideal way to make new friends and get the full student experience. Edinburgh College offers student accommodation at Milton Road and Granton campuses.

Milton Road Campus

Student accommodation is situated next to the main college building as well as the Club gym and spa. This accommodation would suit Milton Road and Midlothian students.

- Located at Milton Road Campus
- Standard and en-suite rooms available
- Free College Wifi
- Right next to leisure facilities (gym, swimming pool and spa)
- All-inclusive payments (rent, council tax and electricity)
- Communal area
- Evening meals Monday to Friday (some dates excluded)
- On-site laundry
- On-site Management team

You can download an application form from edinburghcollege.ac.uk/accommodation

Granton Campus

Students can also apply for accommodation at our Granton Campus, provided through CRM Students. This accommodation would suit Granton and Sighthill students.

- Located next to Granton Campus
- All-inclusive utility bills
- Free Wifi and broadband throughout
- Lounge in each kitchen
- Private en-suites
- Communal area
- On-site Management team

Please fill out the online application form at crm-students.com

For more information about accommodation visit edinburghcollege.ac.uk/accommodation

STUDENTS' ASSOCIATION

As soon as you enrol at Edinburgh College you become a member of the Edinburgh College Students' Association (ECSA).

Edinburgh College
**Students
Association**

ECSA is here to represent all students at Edinburgh College which means what they do changes to suit the needs of the student body.

They make sure your voice is heard through the class rep system, allowing you to put your ideas across to the College at all levels. This means you can make a real difference as a student.

If you have an issue with any aspect of your college life such as funding, bursaries or academic problems, ECSA are here to help.

For more information about Edinburgh College Students' Association visit ecsa.scot

At Edinburgh College our students come from far and wide. Every student that comes to the College has a unique story to tell and helps make us who we are. We have students who achieve amazing things at the College. We define amazing as not only achieving awards or accolades, but overcoming personal and social challenges while achieving your dreams. Below are real students who were happy to share their amazing stories.

Steph – SWAP Access to Life Science

Thirty-four-year-old Steph Logan tells us how she's getting a second chance to achieve her dreams after joining Edinburgh College's Life Sciences Access (SWAP) course.

“ I'm doing something I never imagined to be possible. The best exam grade I gained in school was a C in Higher Biology so I didn't think I could achieve anymore in terms of education.

Now I feel like there's a clear path to my dream of completing a PhD in neuroscience and working on mental health research.

Find out more about Steph's story here:
edinburghcollege.ac.uk/ecstudentstories/steph

Radost – VTCT Level 3 Hairdressing

Radost Staykova plans to open her own wedding hair and make-up business and is learning all of the skills she needs on her VTCT Level 3 Hairdressing course at Edinburgh College.

“ Since I started at College in 2014, when I studied English for Speakers of Other Languages (ESOL), it has felt like home. My lecturers in Hairdressing are now like family to me – they have really supported me and inspired me to be the best stylist I can. The majority of my family lives in Bulgaria – but I feel like I have gained a second one here.”

Find out more about Radost's story here:
edinburghcollege.ac.uk/ecstudentstories/radost

Scott – Human Resource Management HND

When dad of three Scott had to leave his job as a field service technician due to an injury which meant he could no longer fulfil the role he had held for six years, he decided Edinburgh College was the place to help him gain the qualifications he needed for a change of career.

“ Returning to education with three children under 10 years old and a mortgage seemed crazy yet, it was the best option I had. I left school with average qualifications and didn't have much to fall back on when my injury meant I couldn't continue to do manual work.

I wanted to study more after school but never had the confidence to do it. I knew I wanted to do something which involved people and so the HND Human Resource Management course seemed a natural fit.

Find out more about Scott's story here:
edinburghcollege.ac.uk/ecstudentstories/scott

Kristina

Thirty-nine-year-old Kristina has returned to Edinburgh College to pursue her ambition of becoming a nursery manager or running her own childminding service. She tells us about what inspired her new career path, and how she's embracing studying a full-time course while raising three children and keeping up a part-time job.

“ I'm really proud that I'm passing all of my assessments and NABS at the first attempt, especially as I have to work hard to find time to do extra studying at home. The support I have received from lecturers and college staff has been brilliant which has helped me a lot. I've been able to do well and I've grown in confidence and feel I have self-worth.

Find out more about Kristina's story here:
edinburghcollege.ac.uk/ecstudentstories/kristina

STUDYING TO SUIT YOU

Still at School?

If you are still at school then you can study part-time at college as one of your column choices. Studying at college gives you additional skills and experience to boost your CV, university application and employment prospects after you leave school.

Schools College Partnership (SCP)

You can study an SCP course at college a couple of afternoons a week (typically). These courses combine school and college study with practical skills training.

Foundation Apprenticeships (FAs)

These courses combine study with real-life work experience. S5/S6 pupils can study FAs as one of their column choices. You can find out more about FAs on page 17.

Leaving School?

Whatever level of studying you are at, Edinburgh College has a range of courses designed to get you ready for the world of work.

Full-time Courses

Full-time study generally requires you to attend college for 3.5 days per week (approximately 20 hours) for the duration of the college year, although some courses can be different.

Modern Apprenticeships (MAs)

Edinburgh College is approved by Skills Development Scotland to offer Modern Apprenticeships where students study on a block release basis with college tutorials alongside paid employment. Please contact your employer for more details.

Access and Continuing Education (ACE)

ACE courses aim to help you make the jump from school to college. You will develop your confidence and independence in a supported environment, gain skills and qualifications to move onto another college course, or to enter employment.

Returning to Education?

College is for everyone and if you are looking to get back into education we have a wide selection of courses designed to help you reach your goal, whether its employment, further study or university.

Part-time and Evening Classes

Part-time courses are offered as day or evening courses to fit around your lifestyle. Attendance is generally 1-2 day sessions per week depending on the type of course you are studying.

Scottish Wider Access Programme (SWAP)

SWAP courses are designed for students who have been out of education for more than three years and will provide you with skills to prepare for university study.

Open Learning

Open Learning courses provide flexibility for you to study in your own time and at your own pace, from home or at one of our campuses, using our virtual learning environment, Moodle.

Looking for a Promotion?

There are a range of courses that are specially designed for those in employment that can give you the essential qualifications needed in the workplace to develop knowledge in your sector.

Day Release and Block Release

You can study work-based qualifications including Scottish Vocational Qualifications (SVQs), Professional Development Awards (PDAs) and Modern Apprenticeship programmes on a block release or day release basis combining work and college study.

Professional Qualifications

You can study professional qualifications part-time, in the evening or via short (1 or 2 day) courses. We are accredited to deliver professional qualifications for your career including Association of Accounting Technicians (AAT), Chartered Institute of Personnel and Development (CIPD), Chartered Management Institute (CMI) and Chartered Institute of Marketing (CIM).

Browse our professional qualification courses at edinburghcollege.ac.uk/training

For more information about courses visit
edinburghcollege.ac.uk/courses

When considering the course you want to study, there are various qualifications you can achieve that can help you on the way to your end goal. Although there is no exact written path from one qualification to the other it is important to understand how to progress your studies and the choices available to you.

Further Education Courses

National Certificate (NC)
National Qualifications (NQ)
National Progression Award (NPA)

These qualifications are a great starting point for anyone who is looking to start building their knowledge within their chosen subject area. These qualifications are recognised as: Access, Intermediate 1, Intermediate 2, Higher, Advanced Higher, Scottish Baccalaureate and National Progression Award.

Courses at this level will usually take place over two semesters of the academic year. They are considered as a great stepping stone to higher education and can help you to gain the core skills required to be workplace ready.

Higher Education Courses

Higher National Certificate (HNC)
Higher National Diploma (HND)

These qualifications are a great way to progress your studies from a base knowledge and to a more specific knowledge of your subject area.

They allow you to practice workplace skills from cooking in a working kitchen to debating in a mock courtroom. This experience will prepare you for the world of work.

You will study a HNC for one academic year. This is usually considered as the equivalent of studying the first year of a university degree, with a HND lasting two years and considered as your first two years of university study. Once you have completed your course at this level, you have the flexibility of using your new qualification to gain employment or enter university in either 2nd or 3rd year.

Degrees

Bachelor of Engineering degree (BEng),
Bachelor of Music degree (BMus), etc.

Once you have completed your foundation qualifications, in some subject areas you may have the choice to study a degree. In some cases, students can achieve an honours degree in three years.

Associate Degrees

Bachelor of Engineering degree (BEng) university route,
Bachelor of Science degree (BSc) university route, etc..

Alongside standard degree programmes we also offer associate degrees. These courses are agreed between the College and selected universities that guarantee* students direct continuation of studies to degree level or beyond. The advantages of these courses are that you complete your first or second year of your degree at college and then progress to the selected university to complete your degree.

*Dependent on grades achieved.

SCQF LEVELS AND CORE SKILLS

Understanding SCQF Levels

Edinburgh College offers a range of nationally and internationally recognised courses across a wide variety of subjects. The course you choose will depend on your current qualifications, experience and career aspirations.

These courses will show you the path you can take through the Scottish Qualifications Framework (SCQF). SCQF levels

for all courses can be found on the courses pages in this prospectus and on our website.

For more information on SCQF levels visit scqf.org.uk

Core Skills

Your college course will develop your specific subject knowledge. In addition, we will equip you with other vital skills to ensure you have the best opportunities after you leave us.

All college courses give you opportunities to develop skills for life, including problem solving, team work, study skills and your own personal development and wellbeing. If you are studying full-time, you will develop three core skills: communication, information and communication technology, and numeracy. You will gain units within each of these skills which will be tailored to your course subject. Your Learning Development Tutor (LDT) will support you with career preparation and planning for the future.

Communication

- Academic Study Skills
- Communication NC
- Core Skills Communication
- Literacy

Information and Communication Technology

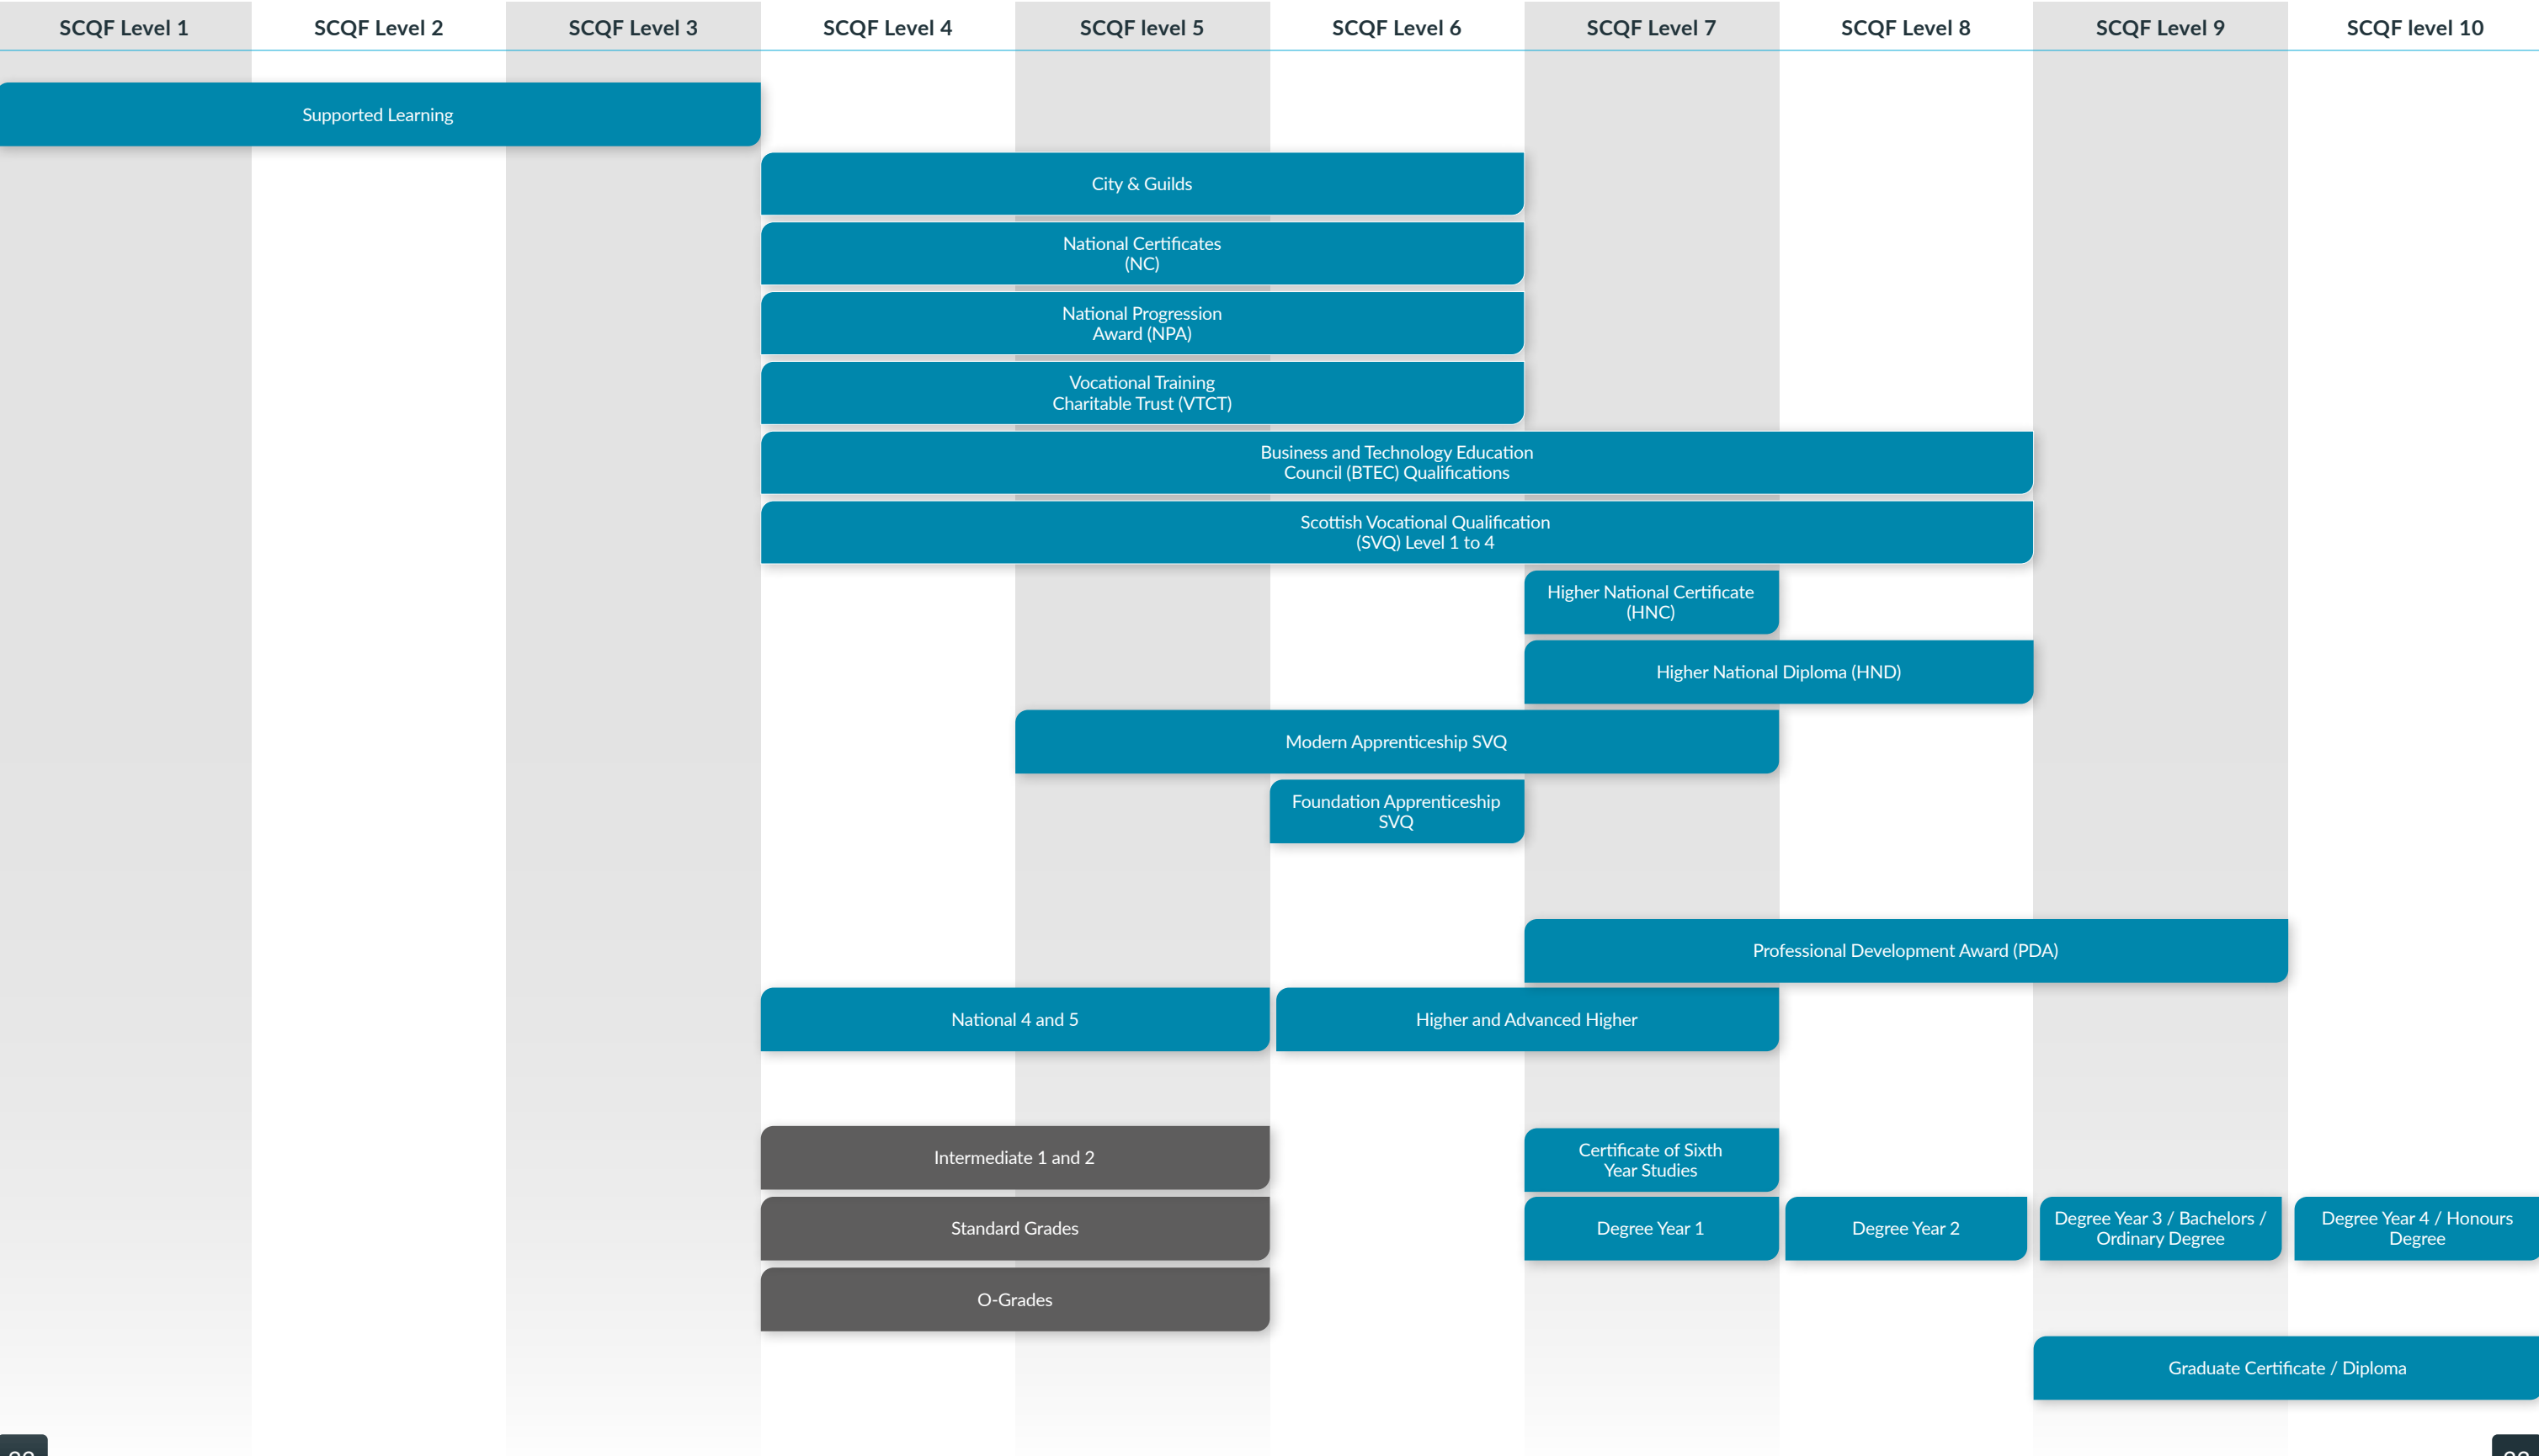

- Computer Application
- Computer Basics
- Core Skills ICT
- Digital Skills
- Essential Skills
- Internet Safety
- Introduction to the Internet and Online Communications

Numeracy

- Core Maths
- Core Skills Numeracy
- Number and Number Processes
- Numeracy National 4
- Money Management
- Shape, Space and Data
- The Principles of Money
- Understanding Money

This map will show you the path you can take through the Scottish Qualifications Framework (SCQF).
SCQF levels for all courses can be found in this prospectus and on our website.

Apprenticeships are a great way of getting valuable work experience while gaining a qualification. Edinburgh College offers a range of apprenticeship options in partnership with Skills Development Scotland (SDS) that will prepare you for employment.

Foundation Apprenticeships (FAs)

College Learning + Work Experience + Qualifications

Foundation Apprenticeships (SCQF Level 6) are specially designed for senior phase school pupils and they combine college learning, qualifications and work experience. It's a great opportunity to try out a career while you are still at school. Whether you are looking to go straight into employment, join a Modern Apprenticeship (MA), or progress to college or university, a Foundation Apprenticeship can set you apart from your classmates.

Pre-apprenticeship Courses

College Learning + Employment Preparation

Pre-apprenticeship courses are a great option if you are looking to boost your qualifications to get into a Modern Apprenticeship. Courses are available across a range of disciplines and are suitable for adults of all ages. They provide an entry route into the trades, helping students to develop their skills and build contacts for future apprenticeship opportunities.

Modern Apprenticeships (MAs)

College Learning + Employment + Qualifications

Designed for any age from school leaver onwards, a Modern Apprenticeship can give you real-life skills for work by combining paid employment, college training and an industry recognised qualification.

You must be employed to start a Modern Apprenticeship as your college training gives you the knowledge and qualifications to develop further in your workplace.

For more information visit

edinburghcollege.ac.uk/apprenticeships

Our guidance staff and Learning Development Tutors (LDTs) at each campus are here to help you with your next steps after college.

Applying for a Job

Edinburgh College can give you support with applying for jobs when you have completed your college course. Our Guidance team are experts on CV preparation and interview skills.

University Applications

The Universities and Colleges Admissions Service (UCAS) is the central organisation responsible for processing applications for full-time undergraduate study at UK universities. Our staff will help you register for UCAS and support you to complete your university application. Please note, the deadline for UCAS applications via the College may be earlier than stated by UCAS.

Returning to Study

You can return to college at any point to continue your studies, develop your knowledge or gain extra qualifications later on in your career. We offer courses that are specially designed for employees whilst at work and for professional development.

For more information visit
edinburghcollege.ac.uk/training

Higher Education (HE) courses don't always have to be studied at a university. You can start your degree at college, or in some cases while you are still at school. Colleges offer many of the subject areas you would expect from a university, and also offer full honours degrees in a number of areas.

Colleges also offer a wide range of practical, vocational courses, such as Higher National Diplomas (HNDs) and Associate Student Degrees. These courses are mainly run in partnership with a university, and can enable students to progress to university with entry at year 2 or 3.

College provides a very high level of teaching and learning support for students on higher education programmes and provides a more nurturing study environment.

There are many benefits to studying your course at college, including:

- smaller class sizes
- flexible study options, including part-time
- more class contact hours and individual study support
- progression pathways to degree courses

If you are planning to study at university, it is a good idea to consider college as a pathway. One or two years studying at college can prepare you to succeed at university and you will also learn the practical hands-on skills employers are looking for.

For more information about full time college pathways contact **Course Information on 0131 297 8300** (lines are open Monday to Friday 9am to 4pm), drop into one of our [virtual Open Days](#) see our website for details www.edinburghcollege.ac.uk/opendays

1

Browse Our Courses

- Find the course that's right for you.
- Make sure you meet the entry requirements.
- If a course is closed then you will have the opportunity to register your interest so you can receive email updates.

2

Apply Online

- Press the "Apply Now" button on the course page to begin your application.
- If you have not applied before you will need to register your details.
- You can save your application and return to it at a later date.
- Remember courses can fill up quickly so please apply as soon as possible for your best chance of securing a place.

3

Course Offer or Interview Offer

- You will receive emails regarding the status of your application from application submission to a course place offer.
- Some courses require an interview, audition or assessment before an offer can be made.
- There are two types of offer - unconditional or conditional:
 - An unconditional offer means you have been accepted and are guaranteed a place on your course.
 - A conditional offer means you must achieve further qualifications or meet certain criteria before you are accepted onto the course.

4

Accept Course Offer

- If you are happy with your course offer, you should log in to the college system and accept your offer. This will secure your place on the course. If the offer is conditional, this place will be dependent on the outcome of your exam results.
- If you are unsuccessful in securing a place, you will be considered for a suitable alternative course.
- You should apply for funding as soon as you receive a course offer (see page 21 for details).
- If you require learning support please contact us (see page 23 for details). If you have stated this on your application form we will contact you to discuss arrangements.

5

Enrolment

After you have accepted your course offer:

- You will receive your course start date and timetable via email.
- You will be sent a link to enrol for your course online.
- You will receive an EC Welcome induction to introduce you to your studies.

6

Begin Studies

- You have made it! Time to focus on your studies and achieve your career goals.

New Applicants

You can only apply for one full-time course or up to three part-time courses per academic year. If you are unsuccessful with your course application, our Course Information team will contact you to find an appropriate alternative option for you.

Current Students

Please contact your Learning Development Tutor (LDT) if you wish to progress onto another college course.

Call our Course Information team on

0131 669 4400

Email our Course Information team at

courseinfo@edinburghcollege.ac.uk

When you are thinking about starting college, one of the most important things to consider is funding and how you intend to pay for some of the costs that come with being a student.

You will need to consider two things: How you will pay for your tuition fees (course cost) and how you will pay for your other living costs including travel, food, and accommodation.

Funding Options

There are several funding options based on the type of course you are studying at college. These include:

- Bursary (full-time students only)
- Education Maintenance Allowance (EMA)
- Childcare Funding
- Discretionary Funding
- Care Experienced Bursary

Visit the Funding Tool for more information on funding and whether or not you may be eligible
edinburghcollege.ac.uk/fundingtool

To pay for your tuition fees, there are options available depending on the course you are studying. These include:

- Fee waiver
- Student Awards Agency for Scotland (SAAS) (HE only)
- Home or international tuition fees

For full information on tuition fees and whether or not you may be eligible, visit
edinburghcollege.ac.uk/coursefees

An application for funding should be made as soon as possible. Applications are dealt with on a first-come first-served basis.

All applications are made via the online application system. Discretionary Fund applications are dealt with at Student Services on campus.

Once your completed application has been received, it will be reviewed by a member of the Funding team as soon as possible.

Most Scottish and European Union* full-time students will not have to pay tuition fees. For full-time further education courses no application is required to apply for fees as your eligibility will be considered automatically at enrolment.

EU fees for 2021/2022

We welcome students from across the world to study and train for the future they want.

EU, EEA or Swiss nationals who are 'settled' or 'pre-settled' in the UK are eligible to apply for home tuition fees in 2021/2022, providing they meet the residency conditions.

For more information on funding and fees for EU, EEA or Swiss nationals, visit
edinburghcollege.ac.uk/brexit-advice

For information on funding and fees for international students, visit

*Please note this information is correct at time of writing but is subject to change due to Britain leaving the European Union. Please check our website or contact our Funding team to confirm up-to-date information.

At Edinburgh College we welcome students of all ages, backgrounds and abilities. We understand that some students may require additional support with their learning to get the best out of their time at college.

Learning Support Process

1		Include your disability or additional support need on your course application. Examples: <ul style="list-style-type: none"> ■ Dyslexia ■ Mental ill health ■ Physical impairment ■ Visual or hearing impairment
2		Our Learning Support team will contact you to arrange a meeting using your preferred communication method.
3		You will need to bring any learning support evidence you have. Examples: <ul style="list-style-type: none"> ■ Letters ■ Certificates ■ Dyslexia screening report ■ Educational psychologist report
4		Your learning support adviser will create a personal learning support plan with you.
5		Our Learning Support team will help you throughout your time at college.

Call our Learning Support team on

Email our Learning Support team at

student.support@edinburghcollege.ac.uk

Learning Development Tutor (LDT)

Your LDT will act as the main point of contact for most full-time students. LDTs meet with students regularly and play a key supporting role, guiding students through their studies and advising on any issues you may have.

Guidance

We have guidance staff at each campus who are dedicated to helping you throughout your time at college. You can get help with:

- Student finance and funding
- Budgeting
- Accommodation
- Finding part-time work
- CV preparation or interview skills
- UCAS applications

Wellbeing

The Wellbeing team are here to ensure you have the best experience you can and enjoy positive mental health. The team's services include:

- Study skills
- Mentoring
- Mental health workshops

Contact our Wellbeing team

English Language Support

If English is not your first language, you may want some extra support. The English Language Support team will:

- Assess your language level before you start your course
- Help you plan and prepare for oral and written assignments
- Offer ways of improving your English, for example, spelling, pronunciation, grammar and using specialist vocabulary
- Improve your English through use of Computer Assisted Language Learning (CALL) facilities
- Help with any special examination arrangements which may be available to you

For more information on English Language Support contact the team

Career Coach is an online career and course matching portal that enables you to make informed course and career choices. The system uses live data from Edinburgh and the Lothians to provide information on employment opportunities, pay scales and current vacancies to give you a real picture of which careers are worth considering.

- 1 Search careers that you think match your goals
- 2 Search ideal courses you would like to study at college
- 3 Take our one minute personality test
- 4 See what jobs are growing

For more information about Career Coach visit
edinburghcollege.ac.uk/careercoach

JobZone is the student employability service at Edinburgh College. It is open to anyone looking for part-time, evening or weekend work. You do not have to be at College to register and use this service.

- Find part-time, evening and weekend jobs
- Get CV and interview tips
- Find resources for career advice

Edinburgh College has a wide range of courses for all levels of ability. Please browse our courses online and contact us if you have any questions or queries. Full in-depth course information can be found on our website.

edinburghcollege.ac.uk/courses

Course List Disclaimer

- If you don't have the required qualifications, we may consider you for a place based on your experience – contact our Course Information team for more information.
- This prospectus provides a summarised version of all our full-time courses. Further information can be found on our website.
- Some courses may require additional equipment or uniform which the student must pay for, more details will be given during your enrolment.
- Depending on the course, you may be invited for an audition, entry test or interview. Some courses may ask to see a portfolio of your work.
- Some courses require a minimum level of English language (IELTS). These requirements will be stated on our website.
- Once you have finished your course, you have the option to move onto a higher level course. For example, students studying at NC/NQ level can apply for a relevant HNC/HND course at Edinburgh College. Students studying at HNC/HND level can apply for degree level courses.

The information above applies to the majority of our courses.

Our Creative Industries faculty offers a variety of courses which help prepare students to stand out from the crowd in their chosen field, be it art and design, broadcast media and photography, music and sound production, performing arts or computing. From budding artists and filmmakers to up-and-coming performers and software engineers, students showcase their talents across a variety of events across the

year culminating in a two-month city-wide creative festival – Glow. Creative Industries is the home of our PASS (Performing Arts Studio Scotland) Theatre as well as creative centres - The Music Box and CRE:8. Students have access to these state-of-the-art facilities throughout their studies, providing an environment to encourage their creativity and allow their talent to flourish.

Facilities

- Film studios with infinity coving
- Music recording studios
- 96 seat auditorium at Milton Road
- 120 seat auditorium at Sighthill
- 110 seat studio theatre at Granton
- Music rehearsal rooms
- Practice booths
- AVID editing suits for TV production
- Dance studios
- Digital audio suite
- Make-Up Studio

EC Student Stories

Andrew - Performing Arts

Andrew studied at PASS and went on to the Royal Conservatoire. He has played leading parts on TV and in theatre, including James II in the highly acclaimed National Theatre of Scotland production The James Plays.

“PASS gave me the tools to go into an industry that requires discipline, determination and a love of what we do.”

EC Student Stories

Lewis - Broadcast Media

Lewis said his experience at College changed him as a person.

“Edinburgh College has given me opportunities I didn't think were possible as a student.” In his time at the College, Lewis has been a camera operator at Knockhill, made videos for the Scottish Social Services Awards and produced and directed a video for the Scottish Parliament. “In comparison to my previous education there's so much more support and equipment. I would highly recommend Edinburgh College to any student who is looking to study television.”

Computing

More than 100 students from Edinburgh College teamed up with Global Treasure Apps to create a series of interactive digital app trails for major tourist attractions across Scotland. Global Treasure Apps connects technology, the classroom, local history, the environment and literature through fun, clue-driven trails created, written and produced by students.

ART & DESIGN

The School of Art and Design is one of the largest of its kind in the UK with over 700 students. It has a strong reputation for progressing students into both degree-level study and employment in the creative industries.

Our students regularly present their art and design work in exhibitions at industry nights in venues across Edinburgh. Our graduate diploma shows in 2019 were held at The City Art Centre, The Fruitmarket Gallery and Edinburgh Sculpture Workshop.

Samantha - Art and Design

Samantha is a graduate of the College's Foundation and HND Contemporary Art Practice courses who went on to gain direct third-year entry onto Glasgow School of Art's Sculpture and Environmental Art course. In June 2019 Samantha graduated with a First Class Honours Degree and is currently working alongside staff and students as our Art and Design Artist In Residence.

If you are interested in outside broadcasting, audio visual technology, film and television, radio, digital media or photography (still and moving image), our exciting range of programmes will provide the specialist training you require.

We offer courses that include multi-camera live capture and vision mixing, scriptwriting, directing, presenting, editing, lighting and sound to prepare you for a career in television or video production.

Our teaching in radio includes presenting, interviewing techniques, sound and audio programming, newsroom operations, scripting and live streaming production. We also

offer training in audio visual technology, so you can gain technical expertise in cabling, camera operations, TV, studio and location production set up, lighting, editing, multi-media sound and track recording for broadcast. Outside Broadcast students are offered paid commercial work experience with clients such as Scottish Football, Scottish Motor Sports, Scottish Gymnastics and Scottish Social Services.

Our photography programmes cover digital capture, retouching, studio, portraiture, fashion, food, landscape, advertising, corporate, photo journalism and social. You will have opportunities to work on live industry projects as well as exhibiting your work within the department and at end of year shows.

“ In the third year of my studies at Edinburgh College, I was fortunate enough to have won a number of student prizes from the Association of Photographer (AOP), The British Institute of Professional Photography (BIPP) and more.

The photography programme at Edinburgh College has been a fantastic part of my creative development, and has really helped to set me up for lots of exciting professional opportunities that are coming soon.

Whether you have got what it takes to code the next big app, or you are a future innovator of computer science, there is a Computing course here at Edinburgh College to suit you. You can study everything from web design to desktop support, networking and games development. Our courses

are taught by experienced and certified lecturers. You will be able to master the skills required for careers in digital media, 3D printing, programming, networking, robotics and games development.

EC Student Stories

Portal to the Past

A group of computing students used their creative talents to bring one of Edinburgh's top historical venues to life in an event called Portal to the Past. More than 100 of the College's students took inspiration from a royal banquet held at Riddles Court in 1598 for King James VI. Guests enjoyed historical pieces performed by dance and music students, as well as interactive experiences on an augmented reality app created by the College's computing students.

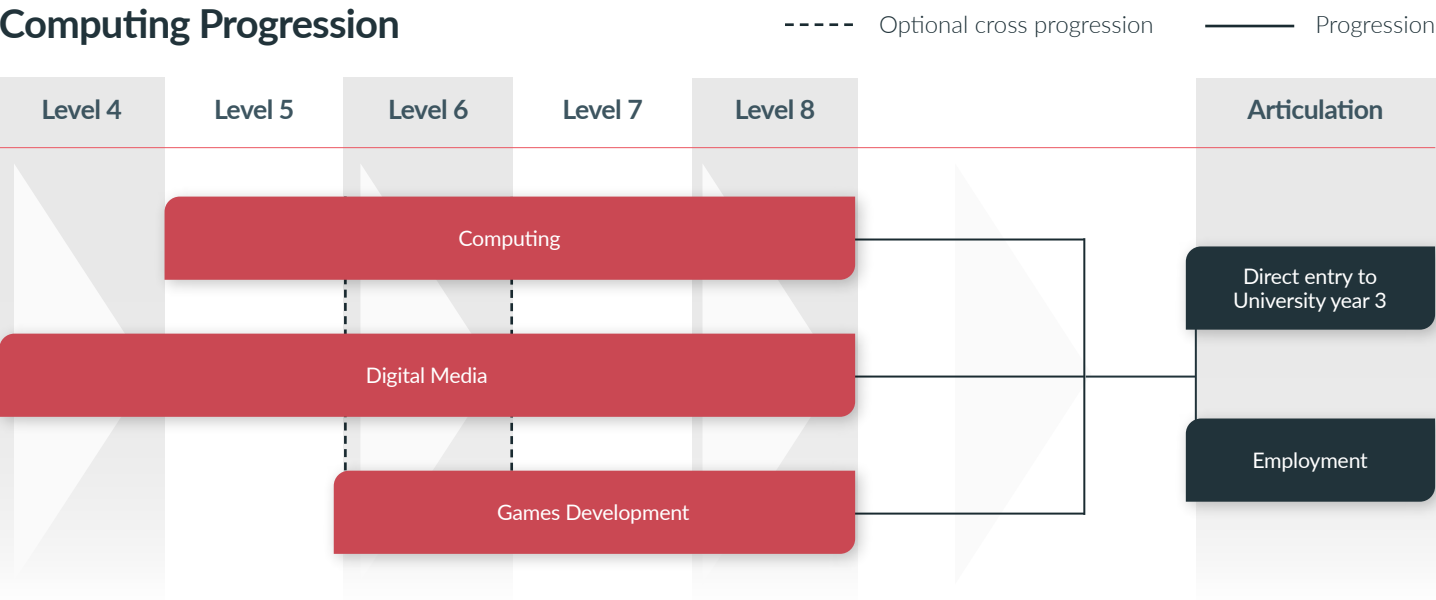

Competing in WorldSkills UK heats

Three Edinburgh College students showed their high-class computing credentials as they finished top of the table in a qualifier for the UK's largest students' skills competition. Fergus, Eimantas and Vilius finished first, second and third respectively in the Networking Infrastructure Technician section of WorldSkills UK Computing heats. HND Networking student Fergus said: "I'm really pleased to have won the heat, I felt quite confident throughout each of the tasks and now I hope I can get a spot at WorldSkills UK Live".

MUSIC & SOUND PRODUCTION

Edinburgh College offers full-time, comprehensive courses in music, music business and sound production, from entry level to degree level. Our lecturers and instrumental/vocal tutors are experts in their fields, providing you with excellent teaching in a broad range of subjects. We welcome students from all kinds of musical backgrounds, and give you exposure

to a rich variety of experiences and possibilities within our courses. Our students perform in some of the city's top venues, including the Usher Hall, Queen's Hall, Voodoo Rooms, Festival Theatre, Liquid Rooms, St Andrew's and St George's West, Old St Paul's, and the City of Edinburgh Methodist Church.

Music students work in a range of supervised ensembles appropriate to their instrument or voice, including choirs, a traditional music band, a big band, a concert band and student-led orchestra, together with many smaller groups. Students also benefit from sound production facilities comparable to top UK recording studios. Music students with a classical background should apply to our Sighthill Campus; those with a rock/pop background can apply to either Milton Road or Sighthill. Students choosing to study Sound Production will be based at our state-of-the-art facility, CRE:8, at Milton Road.

Students studying on our Music Business courses will gain up-to-date specialist knowledge of all major areas of the industry including touring and festivals, the organisation and promotion of music events, and managing artists' careers. Courses are Apple and AVID accredited. Music HND and Sound Production HND include Apple End User certification. Sound Production HND also has AVID Pro-Tools certification. Our students benefit from one-to-one tuition. A BA Honours degree can be obtained in three years of study at Edinburgh College from HND year 1, without needing to apply through UCAS.

EC Student Stories

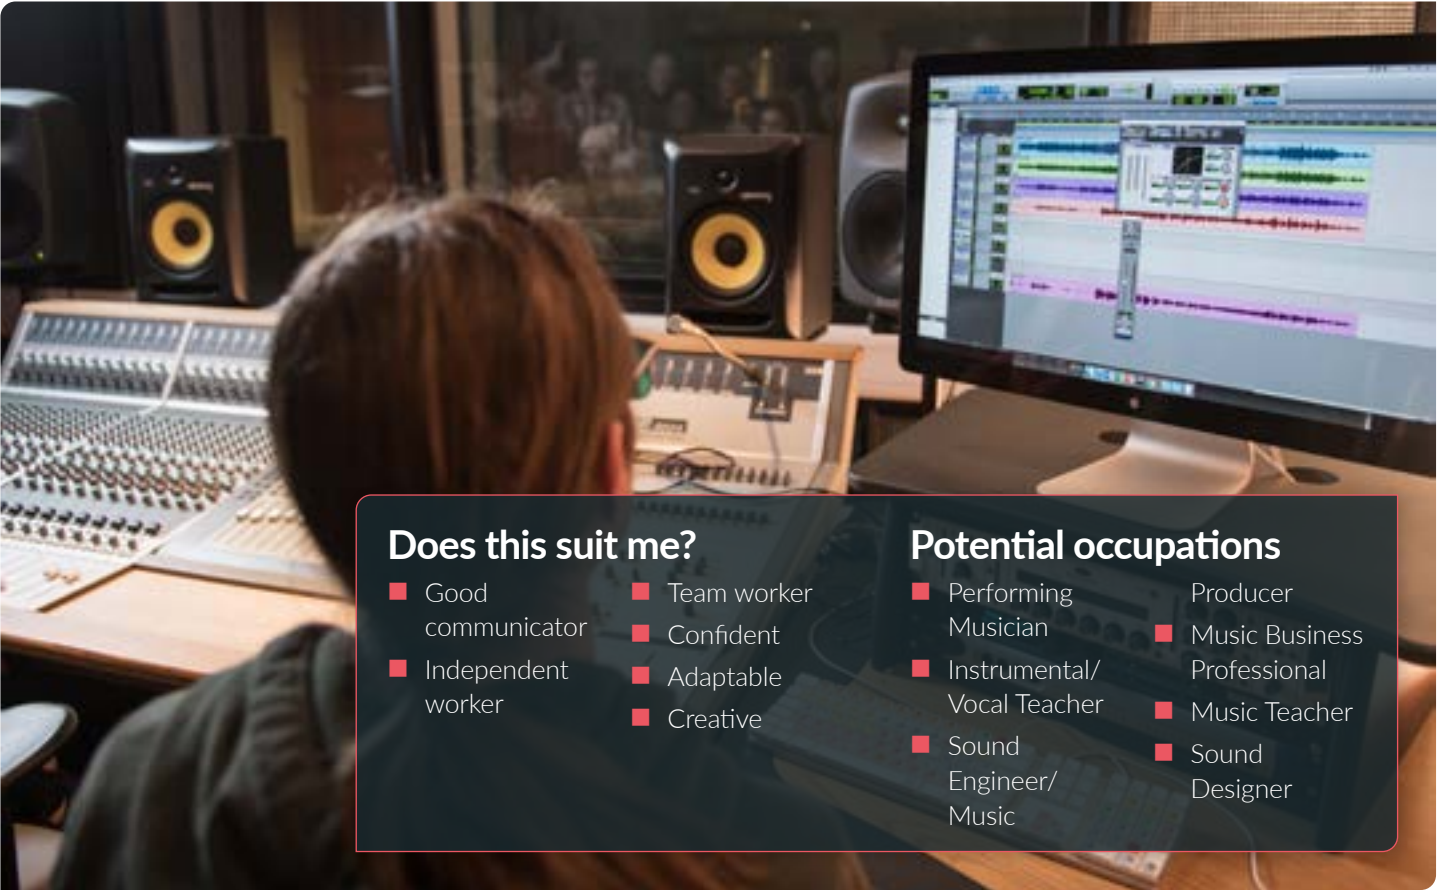

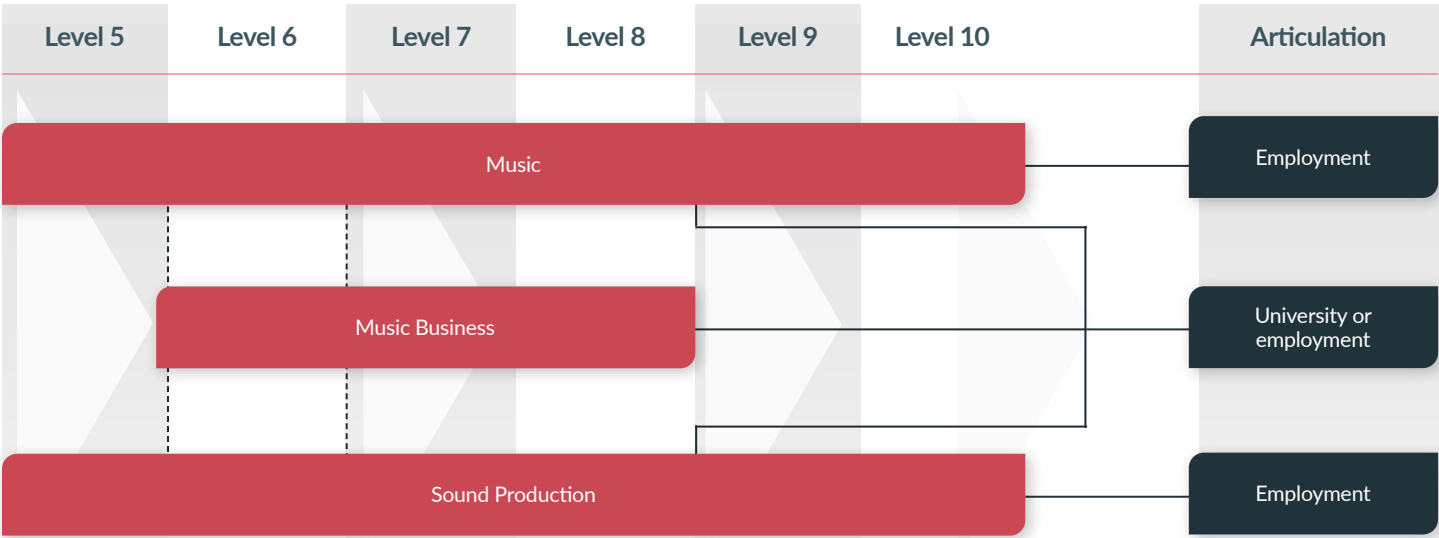

Ruairidh - Music

Ruairidh came to college after having a difficult time at school. He studied for five years, completing his education with a first class honours degree in Popular Music. Ruairidh now travels the world as a musician on cruise ships.

“ Studying at Edinburgh College gave me the confidence and the courage to be ambitious with my musical goals and I am forever grateful to the staff for their knowledge and guidance. ”

Education

 Avid Learning Partner

Edinburgh College is home to Performing Arts Studio Scotland (PASS), one of the country’s largest and most respected centres for training in the Performing Arts. Whether you aspire towards a career in acting, dance, technical theatre, make-up artistry, costume production or design, PASS is a great place to kick start your career.

Within PASS you will find a purpose-built theatre and dedicated rehearsal studios. These professional facilities make PASS the perfect place to showcase your talents. We deliver exciting performances throughout the year, giving all

specialisms the chance to put their learning into practice. We have a dedicated team of experienced lecturers who work closely with the industry to ensure our students are given the best opportunity to develop and progress. We regularly invite industry experts to deliver workshops. Our aim is to create the next generation of performers, creative practitioners, stage managers, musical theatre artists and technicians to ensure a robust and exciting cultural future. We will help guide you towards your future career goals, whether that is going straight into employment, or on to higher education at universities such as the Royal Conservatoire or other prestigious institutions.

Our Engineering & Built Environment faculty provides students with an opportunity to learn and develop their craft in realistic working environments, from the car garage to an oil production platform simulator. Whether its apprenticeships or continuing professional development courses, our team of expert lecturers help students upskill and reskill. The faculty covers a wide

variety of subject areas including built environment, securities and plumbing, engineering, automotive engineering, electrical engineering, science, trowel trades and allied skills, carpentry, joinery, and painting and decorating. Students have the opportunity to represent the College in competitions across the world.

Facilities

- Automotive workshops including a dedicated paint and body space
- Engineering workshops
- Oil platform simulator
- Painting and decorating centre
- Solar meadow training centre
- Multiple trade skills spaces

EC Student Stories

Citroën C1 Racing Team

A group of Edinburgh College Automotive students got their first experience of life in the racing world in 2019 after playing a key role in supporting a Scottish team to get track-ready. Transport Maintenance students converted a Citroën C1 road car into a race car for Tom Denham Racing

to compete in the Scottish C1 Cup at Knockhill Race Circuit. As well as converting the car, the students play a part in race day maintenance and testing – finding out what life as a race day mechanic is like – and ensuring the team has the best possible chance of winning.

Alizah - Built Environment

HND Civil Engineering student Alizah attended a major industry conference in Singapore to showcase a design project she has worked on since she was at school.

Alizah was part of a team which won the first ever Future Infrastructure Challenge: Design Engineer Construct (DEC) Hyperloop hosted by Bentley Systems and Class of Your Own in 2019.

The challenge saw pupils and students from across the UK tasked with conceptualising a design of a Hyperloop high-speed transport system and stations for Singapore.

Alizah won a complimentary trip to Singapore to attend Bentley Systems' annual Year in Infrastructure Conference.

Edinburgh College is a leading provider of automotive and mechanical engineering. Automotive programmes offer a range from classic vehicle restoration, vehicle accident repair, transport maintenance and advanced vehicle diagnostics. Our students learn about the design, manufacture, operation and repair of a wide range of vehicles.

The purpose built workshops and lecture rooms at Sighthill and Midlothian campuses provide students with all the necessary resources to engage fully in their chosen programmes of study. As well as our full-time courses listed in this prospectus, we offer modern apprenticeship programmes in light vehicle, heavy vehicle, paint and body

repair and parts. Apprentice training programmes enable individuals, already employed within the motor industry, to engage in knowledge and competence based learning which builds towards an SVQ 3 modern apprenticeship qualification. Many of our former students have progressed into senior roles as master technicians and service managers. We offer bespoke training to the automotive industry on subjects as varied as hybrid/electric vehicle maintenance, air-conditioning (F-Gas) and electrical diagnostics. So, whether you are a newly qualified technician, an apprentice, or have worked in the industry for many years, our courses will give you the innovative skills to place you ahead of the competition.

EC Student Stories

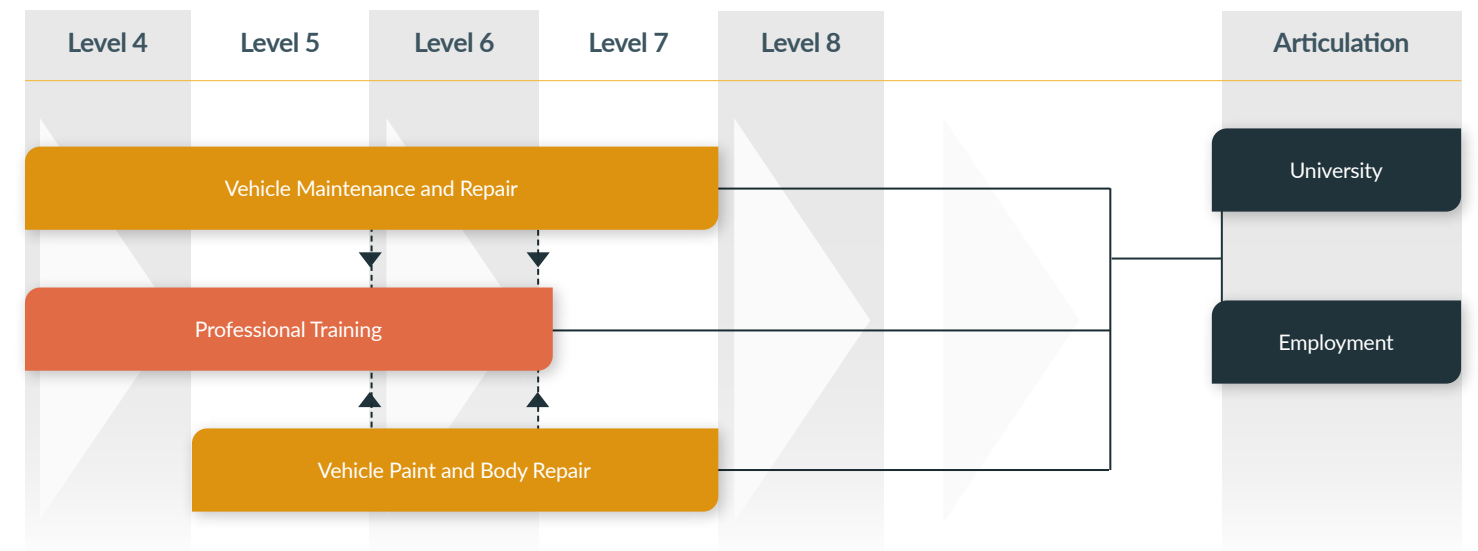

Tony - Automotive Engineering Student

Edinburgh College Automotive Engineering student Tony drove himself into contention for a final spot in the UK's biggest skills competition after winning a qualifier designed to test his light vehicle maintenance skills. Tony was awarded first place in the IMI Skill Auto Technology Qualifiers, beating five students from three other UK colleges at the Henry Ford Academy in Daventry, Northamptonshire. Livingston-born Tony and his competitors were also given a tour of the Henry Ford Academy and spent time speaking with judges to receive feedback on their performance. The 36-year-old joined the College after years of searching for his true career calling in life and has now completed three years studying the IMI-approved course at Sighthill Campus.

Our courses give you the practical skills to work in areas like architectural technology, civil engineering, and construction management. Whether you want to design buildings, learn how to build bridges or manage construction projects, our technical building courses will get you ready for working in the construction sector. This includes giving you a creative background, science and maths skills, knowledge of materials and understanding of new building technologies.

We work closely with the Chartered Institute of Building (CIOB), Institute of Civil Engineers (ICE) and the Chartered Institute of Architectural Technology (CIAT). This means you will have the opportunity to be a student member of these professional institutes while you study. The benefit of excellent industry connections, facilities and teaching at Edinburgh College sees over 80% of our HND students go on to study at university.

Built Environment Progression

Our course offering includes all elements of brickwork, plastering, roofing, stonemasonry, carpentry and joinery, and painting and decorating to prepare you for working in the construction industry. While studying at Edinburgh College you will benefit from realistic working environments. All of our courses provide a qualification designed to prepare you for employment, career development or progression to further study. You may also have the opportunity to work on real projects which relate to the tasks you could expect to find in the industry.

We work with training providers including the Construction Industry Training Board (CITB) on our apprenticeship courses as well as supporting pre-apprentices into employment. We also support students through regional and national competitions. Past students have won several World Skills and UK Skills Awards and our qualified teaching staff have developed regional, national, and international skills champions across several disciplines, including stonemasonry and brickwork.

EC Student Stories

Alan - Carpentry & Joinery

Many people may think that it's far too late in life to be starting college at the age of 50, but carpentry and joinery apprentice Alan Smith has put a nail in that theory.

Alan had been working as a labourer for East Lothian Council since 2014 but jumped at the chance to come to Edinburgh College to complete a two-year apprenticeship, in partnership with his employer.

Starting in 2016, Alan has honed his trade and left the College as the two-time winner of the Edinburgh College Carpentry and

Joinery Apprentice of the Year Award. He collected his second honour at our 2018 Prize Giving Ceremony.

Alan was also named the 2017 winner of the Association for Public Service Excellence (APSE) Apprentice of the Year award, after producing a portfolio of his work.

For more student stories visit edinburghcollege.ac.uk/ecstudentstories

If you are looking to become an electrical or electronic engineer, we have a range of courses to support you in your chosen specialism. Courses cover areas such as power systems, electrical installation, motors and generators, electronics and soldering, signal processing and microcontroller programming as well as more general electrical theory.

You can study Electrical Engineering from entry level to Bachelors in Engineering (BEng) Degree level, with fast track options to university. We also have part-time study options to suit the needs of employed students. To prepare you for your future employment you will be taught by staff with extensive industry experience and you will use up-to-date technology and equipment in industry-standard workshops.

EC Student Stories

Rhys - Electrical Engineering

Rhys originally started at Edinburgh College as a full-time student and studied a range of subjects including electrical principles, maths, testing and measurement and wiring skills. On completing the Electrical Engineering NC Higher course he successfully gained an apprenticeship through Trained Up and secured a position with Forth Ports PLC. As part of his training he returned to Edinburgh College to complete the practical element.

Moving on from his Modern Apprenticeship Rhys applied to continue his studies on a part-time basis at Edinburgh College with the support of his employer. He completed his HND in Electrical Engineering and successfully gained full-time employment.

Ladislav - Electrical Engineering

Twenty-year-old HND Electrical Engineering student Ladislav was the first ever student to be awarded the David Doig Foundation STEM scholarship – managed by the Edinburgh College Development Trust – and thrived on his experience of working with the College's Midlothian Campus STEM team.

2018, and has supported the delivery the College's STEM Inspiration Experience programme to P7 and S1 pupils every Thursday. His role has involved interacting with the pupils to help them through a series of activities designed to give them an insight into STEM subjects from an early age.

Ladislav, who lives in Musselburgh, applied for the scholarship through the Edinburgh College Development Trust in October

For more student stories visit edinburghcollege.ac.uk/ecstudentstories

Edinburgh College is at the forefront of modern engineering, offering an exciting range of courses which are designed to respond to the needs of the industry. You will study a range of subjects across a variety of engineering disciplines, covering subjects such as thermofluids, pneumatics and hydraulics to engineering principles and engineering system analysis. You will use simulation and design software to solve engineering problems in a wide variety of fields including the Energy, Manufacturing and Transport sectors. Practical fitting activities including milling and turning, CAD, CNC machine modelling and all disciplines of welding and cutting are also taught. Courses are delivered at all levels by our qualified engineers to develop the workforce of the future.

Whether you choose mechanical engineering, energy and environmental engineering, heating and ventilation, fabrication and welding or measurement and control we offer a range of training levels to meet your individual needs. We provide clear progression routes to degree level studies through partnerships with some of Scotland's leading universities. To prepare you for your future career, you will study in real life working environments using the latest industry technologies. We are particularly proud of our innovative facilities, including a Digital Control System (DCS) with process control, wind turbine testing facilities, a virtual welder and an immersive hybrid reality simulator, which ensures that your training is relevant to the industry of today.

Flexible and award winning Mechanical Engineering HNC (Enhanced Distance Learning)

The HNC in Mechanical Engineering (Enhanced Distance Learning) Course has been an online success with students from across the world participating in the course. It was short listed for prizes at both the 2019 Herald Higher Education (HE) and 2019 College Development Network (CDN) Awards as a technological and innovative lead in the sector.

The course is delivered online using Desktop Sharing Technology, allowing effective two-way communication between students and teaching staff.

EC Student Stories

“ I really enjoyed studying Microbiology at Edinburgh College. It was exciting using a microscope for the first time and analysing bacterial colonies that I had created. The equipment required for titrations was very precise and specialised. I enjoyed the overall experience of learning and being at college - meeting great people, discovering new things and the sense of achievement after such a heavy workload. I've started studying an honours degree in Biological Science at The University of Edinburgh.

- Sports therapy room
- Sports hall (Sighthill & Granton)

EC Student Stories

Gavin - Childhood Practice

After studying music at university, Childhood Practice PDA student Gavin explored a range of different careers before finding his calling in childcare and early learning.

“Working with children can be the most rewarding job in the world. No two days are the same and no two children are the same. Each day you’re helping to develop their young minds and are making an important lasting difference to their future - childcare is so much more than just playing with play dough and finger painting!

After finishing a degree in music I tried a number of jobs in different industries but found my passion for childcare and early learning while working in a crèche. Having an opportunity to develop and guide children at a time when their brains are developing faster than ever is a huge and rewarding responsibility.

It is the type of job you don’t mind getting out of bed for - in fact I look forward to getting out of bed and to seeing what the day will bring.”

“ I really needed the time to settle back into education, to prepare me personally and educationally, although I knew I wanted to progress to university. The tutors were very supportive and understanding of my learning style.

Rab **WORKING WITH COMMUNITIES**

ACCESS & CONTINUING EDUCATION

Access & Continuing Education (ACE) offers part-time and full-time courses designed to help you to move on to further learning or employment. You will get the most out of your college experience, whatever your learning needs.

ACE courses are taught in a supported environment. They aim to help you to return to education as an adult, make the jump from school to college, become more independent, gain skills and qualifications, and plan your next steps.

Community Courses

We offer a wide range of courses in the community, from confidence building to everyday core skills. We can also deliver tailored courses for other organisations.

EC Student Stories

Matthew - ACE

Matthew disliked learning at school and so came to college. During his studies he was offered an apprenticeship and a year later, after successfully completing his SVQ 2 Modern Apprenticeship, he is now studying Agriculture. His view of learning was transformed, along with his confidence, during his time at college.

Duncan - ACE

Former student Duncan started at Edinburgh College on the Entry to Learning course progressing on Preparation for Employment then Project SEARCH. Duncan is now employed by the NHS as a hospital porter at The Royal Infirmary of Edinburgh Hospital.

ADVANCED HIGHER, HIGHER & NATIONAL 5

Advanced Higher, Higher & National 5 qualifications, accredited by the Scottish Qualifications Authority, are typically studied at high school or college. These qualifications act as pathways to further study including university entry. Edinburgh College offers a selection of subjects at Advanced Higher, Higher & National 5 level on

a part-time basis. You can choose to study up to two subjects during one academic year. For classes taking place during the day, you will come to college twice a week for a two-hour class. For evening classes, you will come to college or an outreach location within the community once a week for a three-hour class.

Advanced Higher, Higher and National 5 courses are open for application later in the year than other courses. Please keep an eye on the Edinburgh College website and social media for updates on when applications will be open.

Preparing for a new career

If you are considering a career in teaching or social work you may need to achieve National 5 Maths or Applications of Maths National 5 and/or Higher English. Curriculum leader for Maths and Numeracy, Susan Lambert, said: "Studying for National 5 Maths can give students who are considering a career in teaching much more than a qualification. It also provides students with insight into how maths is taught and a learner perspective on this."

Applying to university

If you are considering studying Advanced Higher, Higher or National 5 courses in preparation for applying to university,

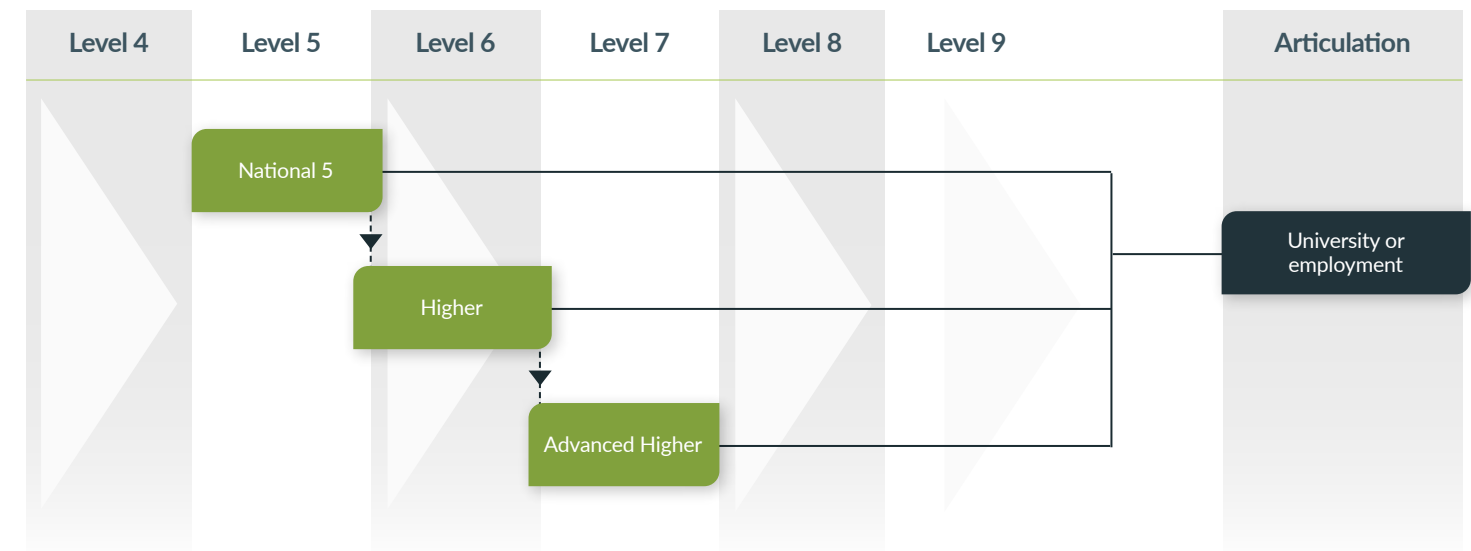

you should check entry requirements for the specific university that you are interested in. Some universities will not consider applicants who have gained Highers in more than two sittings. You should also check English and Maths requirements for courses you are considering applying to. You will be able to submit a UCAS application through Edinburgh College while you study your course and can access support to write your personal statement and submit your application.

Course Fees

£300 (approx.) per subject. Fees will be confirmed when your application has been processed.

Childhood Practice is one of the largest departments at Edinburgh College. Our courses can lead to very rewarding and satisfying careers, with a job in early learning and childcare giving you the opportunity to teach children skills for life. The Scottish Government's 2020 agenda has developed an increase in career opportunities in early learning and childcare.

If you enjoy spending time with children, and want to make a difference, then you could have what it takes to study Childhood Practice at Edinburgh College.

- Motivated

Potential occupations

- Support Worker
- Practitioner
- Childminder
- Manager or Lead Practitioner
- Education Support Assistant

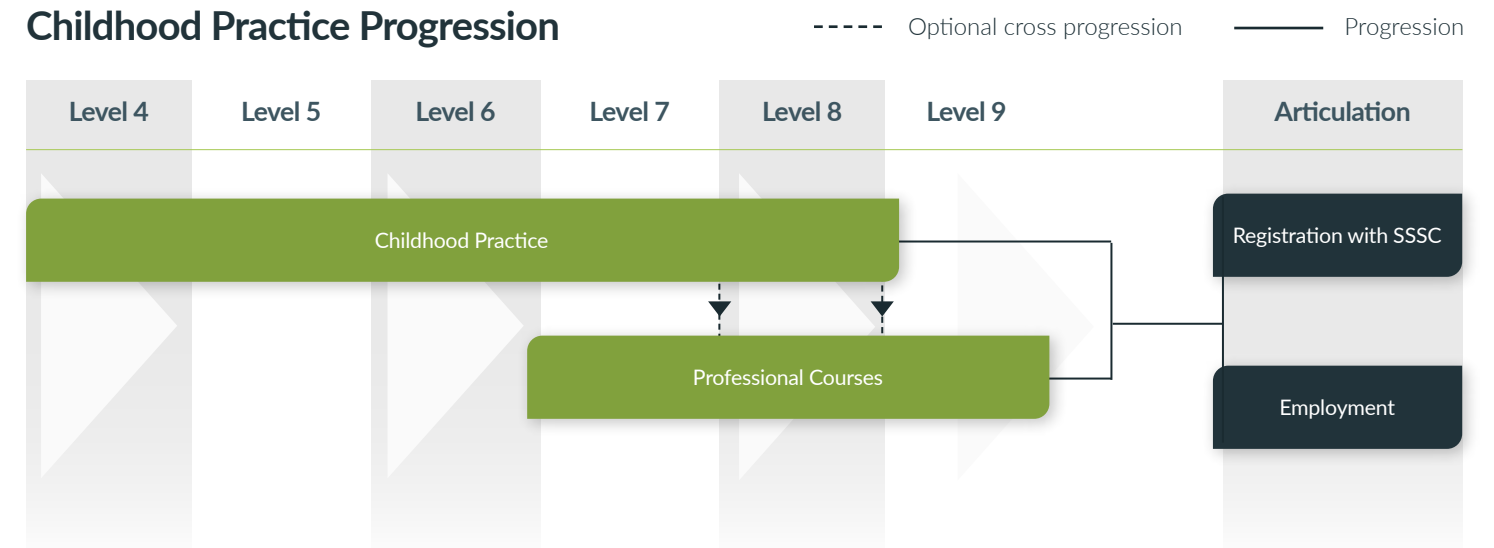

“ HNC Childhood Practice is a very interesting course that involves different units which focus on a variety of needs for children and young people. There are many chances to give opinions and thoughts, as well as opportunities to think independently and creatively.

I would like to take the skills and knowledge from my course to become a nursery nurse. By doing this I would like to put all aspects of the HNC Childhood Practice into a working environment with children.

Amy **CHILDHOOD PRACTICE**

Childhood Practice Progression

EC Student Stories

Kieran - Childhood Practice

After working as a volunteer at a holiday club with Edinburgh Leisure, Kieran applied for a job as a childcare practitioner with North Edinburgh Childcare. Since being offered the job, Kieran has worked his way up to Senior Practitioner and Team Leader, gaining qualifications along the way.

Interacting with children, offering them opportunities to take part in different activities and seeing changes in behaviour are all things that Kieran says are the best parts of the job.

When questioned about what it takes to work in this sector, Kieran says

“ Don't feel you need to be good at everything. Everyone has skills they can use to support children. This can be in things like arts and crafts but also in things like sports, outdoor activities and languages. ”

HEALTH PROFESSIONS

If you are looking to develop your knowledge in the areas of health, dental nursing or pharmacy then we have a range of courses to support your ambitions. Courses range from entry level to HNC, with progression to employment or university for further study. The School of Health Professions and Social Services works closely with industry partners such as City

of Edinburgh Council, Midlothian Council, Scottish Social Services Council (SSSC), General Dental Council (GDC), General Pharmaceutical Council (GPHC), NHS Lothian, Queen Margaret University and Edinburgh Napier University. These partnerships provide you with the opportunity to expand your skills and get a real insight into the sector.

“ I always find the classes interesting as they're taught well, and I like that I was able to learn about so many subjects in just one course. ”

If you are looking to develop a career in the voluntary and mental health sectors then a course in counselling is a great option. The aim of these courses is to introduce you to concepts and skills required to offer support through the use of listening and responding skills.

Working with Communities courses prepare students to work in a variety of community contexts. Throughout your studies you will learn about group working, develop an understanding of youth work and adult education, and engage with a variety of subjects.

Social Services HNC graduate Kim displayed an exemplary attitude to social care throughout her studies. As a student Kim was always looking to support others, both within the classroom environment and whilst on placement. Kim won the Principal's Award for Academic Excellence in Health, Wellbeing and Social Science in 2018.

From psychology, sociology and history to politics and criminology, we have a huge selection of Social Science courses at Edinburgh College. You can choose from introductory courses, Higher, NC or HNC.

Whichever course you choose, we will encourage you to ask questions and challenge assumptions about society. This will help you to understand the impact of policies and politics on everyday life.

EC Student Stories

Many of our Social Science students begin on lower level courses, working their way up to complete their Social Science HNC. These Level 6 Social Science students recently completed their Level 5 in Social Science. Here's what they have to say about studying at Edinburgh College:

“ I got a good sense of how the world works, and how it doesn't work. Everybody is equal – it is not like school.

I am from another country and felt completely at home in the classroom. The social sciences made me realise I can't believe everything I read.

I thought I wouldn't fit in because of my age. Age has not been a barrier at all.

”

SOCIAL SCIENCE STUDENTS

Our Tourism, Hospitality & Business faculty works closely with industry to ensure all of its students are receiving the most up-to-date, relevant and recognised training. As well as two student-led restaurants – eh15 and The Apprentice – this faculty manages a variety of hair and beauty facilities on campus. These allow students to practice and gain the valuable skills needed

for working in a salon setting. There's also a mock aircraft! Students can study courses across professional cookery and hospitality, retail and events, travel and tourism, English for speakers of other languages, hairdressing and beauty, business and finance, and modern languages.

Facilities

- Two training restaurants
- Hairdressing and barbering salons
- Beauty salons and spas
- A mock plane fuselage classroom
- Student-run retail shop

Maisoon – ESOL and Bakery

Maisoon moved to Scotland from Syria and started learning English language skills at College before progressing on to NC Bakery.

“ I chose to study Bakery because it felt like a natural progression for me, since I had been already studying English as a second language at Sighthill Campus.

The best thing about studying at Edinburgh College has been having the chance to learn more about many different cultures through interacting with other students from other countries. Moreover, in the NC Bakery course I got to learn more about the traditions of Scottish sweets.

EC Student Stories

Scott - Human Resource Management

Scott came to college to change his career following an injury which prevented him from working in his previous role.

Following three years of study, he graduated with a HND in Human Resource Management and is working in Edinburgh College's HR team.

“ Returning to education with three children and a mortgage seemed crazy yet, it was the best option I had. The best thing about studying at Edinburgh College was the culture and the people. The course and the teaching were centred on the students, which made learning effective and enjoyable. It created a cohesive team-like environment in which I made many friends.

Jamal, Hope and Jorge - Professional Cookery

Three Professional Cookery students proved they can handle the heat of the kitchen after picking up medals at a national competition just four weeks into their new course.

SVQ Professional Cookery students Jamal Abdul Mora, Hope Tasara, and Jorge Rodriguez Grana won gold, silver and bronze respectively at the Major Series 2019 competition held in Paisley.

As a gold winner, Jamal will head to the Major Series national final taking place in London next year, where he will represent Scotland. To get there, Jamal wowed the judges with his chicken roulade served with mushroom jus.

Jamal's classmate, Hope, won a silver medal in the street food category – she was tasked with preparing chicken fillets with a pak choi salad. Fellow student, Jorge claimed third place in the pasta challenge. Fresh pasta was something Jorge had never made prior to the Major competition, demonstrating how incredible an achievement claiming his bronze medal is.

Edinburgh College offers a range of SQA accredited courses to prepare you for the fast-paced and ever changing business industry including professional areas of business, marketing, finance, accounting, legal services and human resource management, and administration. You will explore key areas of business, including creating business plans, analysing industry sectors, financial and management accountancy, and strategy development - all skills that employers are looking for. Business courses will also develop your skills in digital marketing, public relations, administration, IT and legal services.

The demand for strong business minded graduates is high and we aim to give you the skills you need to thrive in your

chosen career. You will gain fantastic business experience by managing annual events and evaluating your experience. In addition, you will evaluate the roles of individuals involved. We also believe that up-to-date knowledge is key for preparing students for industry. For legal services, student guest speakers such as Advocates, Police Scotland and the Law Society regularly attend classes to give you tips and advice from the sector. In addition, there may also be the opportunity to attend a live court session. Our Higher National Diploma (HND) business, finance, marketing, legal services and human resource management, accounting, administration and IT programmes offer clear progression routes to university, modern or graduate apprenticeships or employment.

Does this suit me?

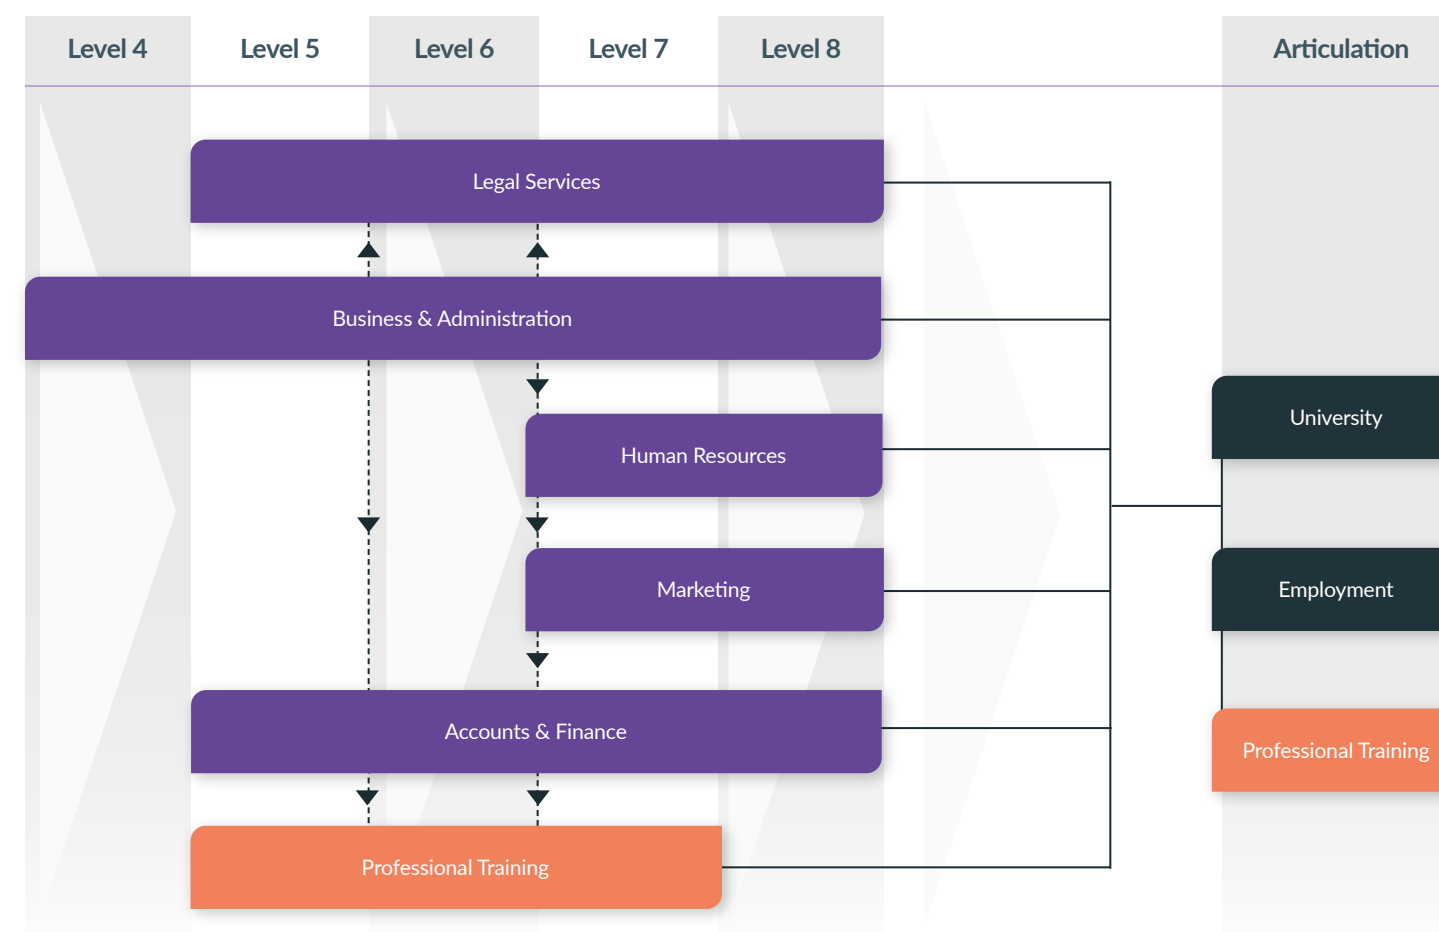

- Good communication skills
- Good written skills

edinburghcollege.ac.uk/courses

We offer English courses for speakers of other languages (ESOL) and teacher training courses (TESOL) for anyone wanting to start or develop their career in teaching English

Class Size

The average class size is 18 - 20 with a maximum class size of 23. You must be aged 16 or older to study ESOL courses at the College.

Course Books and Exam Fees

For all courses, you will need to spend between £30 and £50 on course books and resources. For Cambridge exam classes, the cost of the exam is not included in the course fee. See our website for details of the fees for Cambridge First, Advanced and IELTS.

International Students

International students are those from outside the EU excluding asylum seekers, refugees, and Humanitarian Protection Status. To find out more about our English Language courses for international students contact the International team:

international@edinburghcollege.ac.uk
or visit edinburghcollege.ac.uk/international

to speakers of other languages. Please see our ESOL Course Guide for full information and details on course fees.

Support for students aged 16 and 17

- 24 hours emergency number is provided.
- Information on 'Keeping yourself safe in Edinburgh' is given at induction.
- A tutorial system is in place for students to discuss progress or any problems with their teacher.
- Students are supervised in class, on class trips/activities, and during work placements.
- Parental consent is required for class trips and work placements. Outside these hours there is no supervision of 16 and 17-year-olds.

Accreditation

All college-based ESOL classes are accredited by the British Council for the teaching of English in the UK.

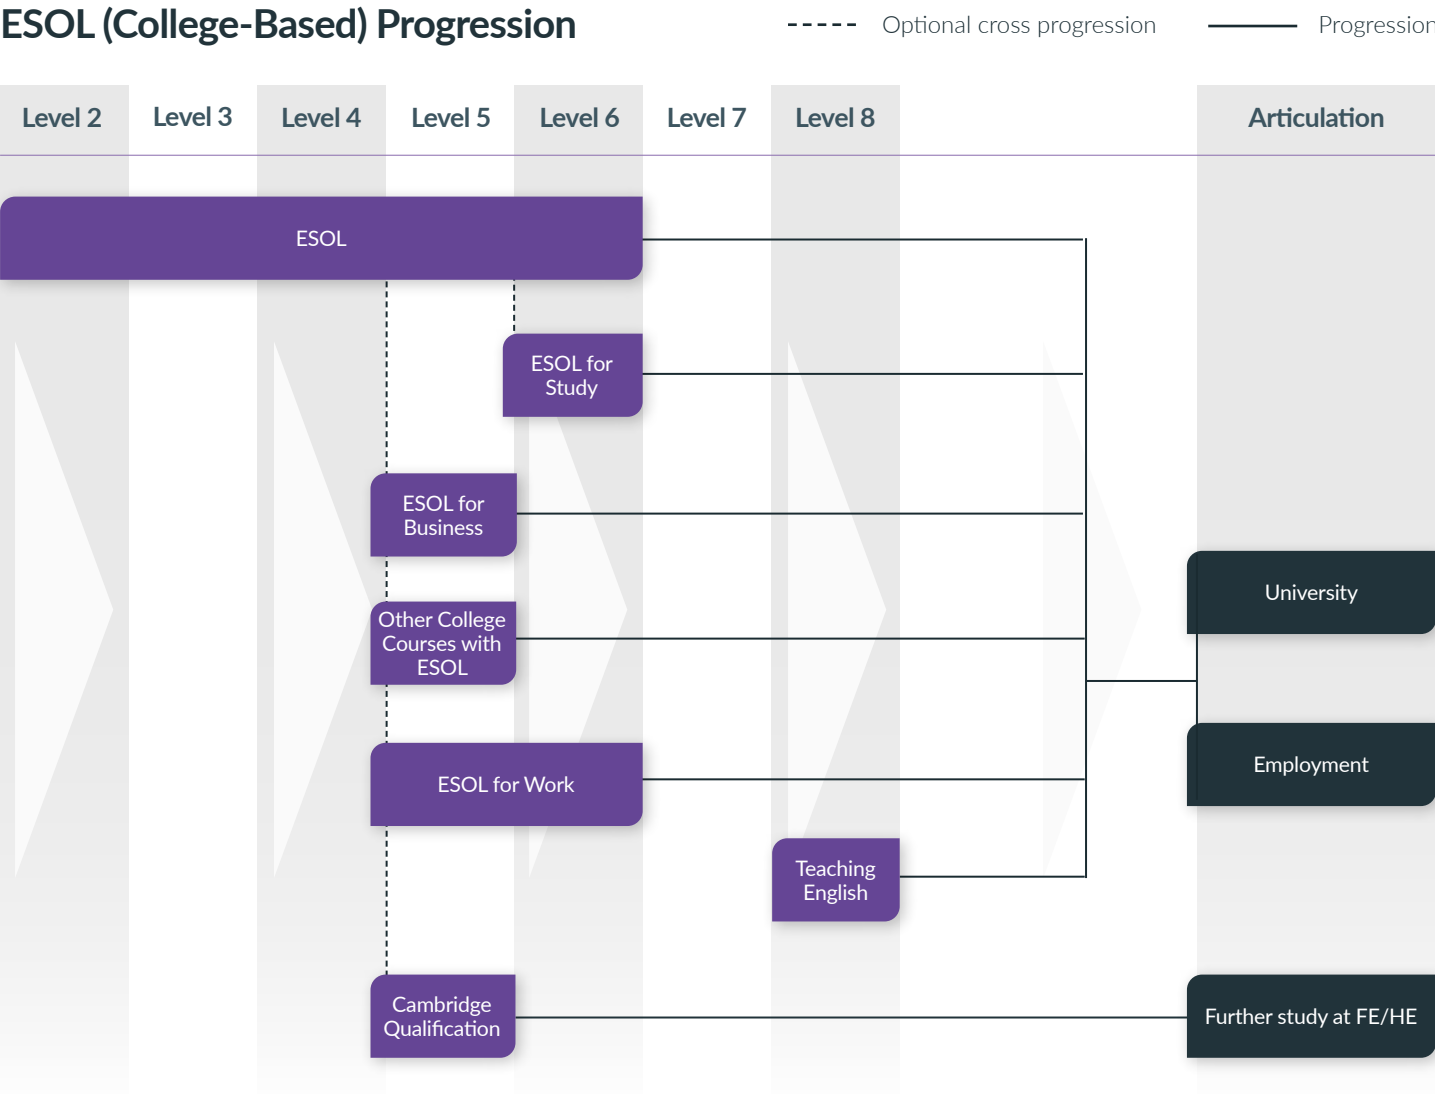

ESOL Courses

- Full-time, part-time or in the evening.
- Courses cover language skills, employability and citizenship skills for life and work in Scotland.
- Students study for Scottish Qualifications Authority (SQA) ESOL qualifications, or for other language tests, such as IELTS and Cambridge certificates (CAE, FCE).
- Full-time National 5 and Higher ESOL plus other subjects, such as business, tourism, IT and work placement.
- Progression to other college courses or work.
- Full-time programmes for young people at SCQF level 4 and 5.
- English Language Summer School that takes place in July and August.

TESOL Courses

- Cover methodology and classroom techniques you need to teach second language students.
- Teacher training qualifications that lead to Cambridge CELTA or SQA certificates.
- Bespoke programmes for groups covering any level or area of teacher training.

ESOL (College-Based) Progression

ESOL (COMMUNITY-BASED)

If your first language is not English you can study ESOL courses with us. We teach language skills to live, work and study in the UK. Classes take place all around the city in community centres, libraries, community high schools and other community venues including Central Mosque. Community-based ESOL courses allow you to study part-time during the day or evenings in a centre near your home or work. This means you can fit studies around work and children's school times.

We welcome applications from students from all backgrounds including asylum seekers, refugees and people applying to the Home Office for citizenship or indefinite leave to remain in the UK. We will assess your level of English to find the right class for you, from beginners to Higher level.

We also offer reading and writing workshops. Course fees apply but you may not need to pay if you receive benefits. You may be able to apply for an ITA (Individual Training Account) to help with fees.

Our after school SCP ESOL courses run at Drummond Community High School from 4–6.30pm with a choice of Monday and Wednesday, or Tuesday and Thursday. Open to S4–S6 school pupils, offering ESOL qualifications at National 3, National 4, National 5 and Higher*.

We recruit, train and support volunteers to teach English to people, including refugees, in their own homes. We also use experienced volunteers in some of our classes.

EC Student Stories

Long - ESOL Student

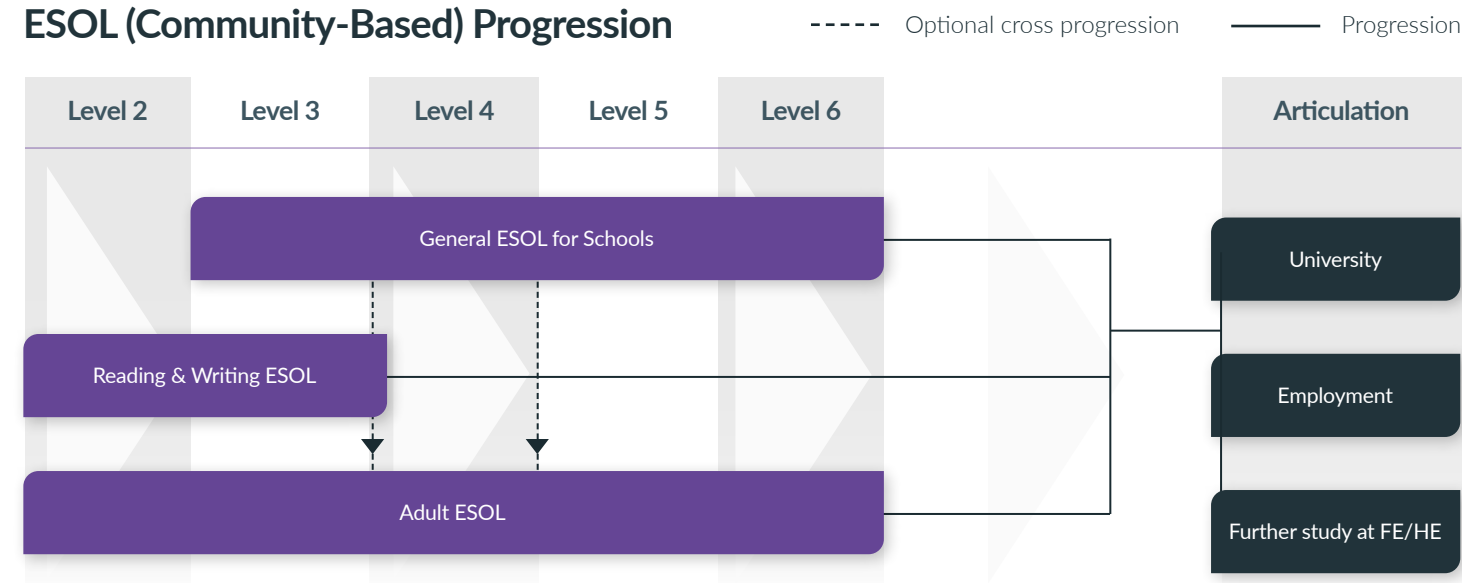

Long came to the UK by himself from China as an asylum seeker when he was 19 years old. After six months of living in London he moved to Edinburgh where he began studying with Community-Based ESOL.

Long joined a part-time beginners course ESOL class at Drummond Community High School where he focused on improving his English. Long worked hard and improved both his general ESOL level and his confidence, and after two years in Community-Based ESOL classes his teacher helped him to apply for a full-time ESOL course at Sighthill. After two years he achieved his ESOL Higher and joined a full-time Tourism course.

For more student stories visit edinburghcollege.ac.uk/ecstudentstories

ESOL (Community-Based) Progression

Progression

- ESOL courses allow you to improve your employability skills.
- National 5 ESOL B pass or above is the English language level you need for entry to vocational courses at college.
- Higher ESOL B pass is accepted by many universities as a measure of English language level.

“ My ESOL classes have been such a great help. I started the course speaking no English, but every year I managed to complete the next level and finally I was able to get a job I was happy with. I think it's great! ”

Olena ESOL

ESOL Courses

- General ESOL for Schools – SCQF levels 3–6
- Adult ESOL classes from complete beginner level to Higher – SCQF levels 2–6
- Reading and Writing ESOL classes – SCQF level 2–3
- Home tutor training courses

*Attendance at a venue is subject to Government health and safety guidelines. Blended learning will be available if venues are closed.

MODERN LANGUAGES

Learning a modern language will prepare you for exciting opportunities in tourism, international business, government, teaching and further vocational study. Here at Edinburgh College, you can study French, Spanish, Italian, German and Gaelic. You will learn language skills that are valued by employers. What's more, you will build transferable skills you can apply to any career.

Our courses offer the possibility to gain a qualification in modern languages, ranging from SQA National 2 Beginner and Post Beginner, National 5, Higher, Advanced Higher (in some languages) to International Diplomas (Spanish only). Whichever course you choose, we offer a range of study options to suit your lifestyle, such as full-time, part-time, evening and open learning. If you are looking to get back into

education, we offer two full-time access to university courses endorsed by SWAP (Scottish Wider Access Programme) to prepare you for degree courses in languages, business and humanities. Alternatively, if you are already fluent in another language and wish to work as an interpreter or translator in public services, our Chartered Institute of Linguists (CioL) Diploma in Public Service Interpreting may be for you.

Modern language skills are required at all levels of the workforce and can progress your career. Around one in four (26%) of UK employers say a foreign language helps with staff mobility within their organisation. English is a global language, but in fact only around 6% of the world's population are native English speakers and an estimated 75% do not speak English at all*.

RETAIL & EVENTS

Retail and events are two of the most exciting and fast paced industries to be employed in. Our retail courses are designed to prepare you for a career as a retail advisor, store supervisor or manager. You will learn about merchandising, retail law, recruitment, marketing, stock management, security and customer care - all vital in the retail sector. You will have the opportunity to organise and run your own pop-up shop during your course, offering you excellent on the job training.

From the world's largest arts festival, to spectacular Hogmanay celebrations, there's no better place to learn

about visualising, planning and creating events than here in Edinburgh. Our events courses cover sporting, cultural, music and business events. You will organise your own group events whilst studying your course and there are also opportunities available for you to gain valuable work experience with the many organisations we work with. If university is your goal, our courses are designed to give you qualifications and the knowledge you will need to gain entry into year 2 or year 3 of a university degree (dependent on ability). Guest speakers and industry visits are a vital part of all of our courses giving you greater insight into your chosen subject area.

EC Student Stories

All Star Events - HND Events Management Students

A group of HND Events Management students brought together schools for a day of football fun at Oriam, Scotland's national performance excellence centre.

The All Star Events team worked together to create the first Inner City Schools Football Tournament – participated in by 15 primary schools across Edinburgh and the Lothians – aimed at encouraging more young people to take part in sport.

The team was presented with the Marston Citizenship Award at the College's 2019 Graduation ceremony in recognition of their incredible work across the community.

Sonia - Travel and Tourism

Sonia studied travel and tourism and has gone onto a successful career within the industry.

"I enrolled in a HND Travel, Tourism and Languages course at Edinburgh College. I loved how you could learn on a yearly basis with access to university.

Tourism became my new career and my first tourism related job was at VisitScotland's iCentre on Princes Street while I was studying. It was a seasonal job that became permanent over the winter while I embarked on my second year at college to finish my course.

A year later a supervisor maternity cover position became available and I was successful in getting the challenge of co-managing the busiest tourist office in the country. After that, off I went to share my passion for Scotland by taking

visitors around the country as a tour guide. After two years of travelling all over the country I decided to settle in and go for an office-based job while I completed my Honours Degree in Tourism Management at Queen Margaret University. I worked in the sales team of a tour company and when I graduated they offered me the business development manager position.

The next challenge came up three years ago when I joined VisitScotland again, this time in the Regional Leadership and Development team, based in the HQ in Leith. I now work with a whole range of stakeholders, from national public organisations to industry groups in order to make sure we all work together to make Scotland the best place to visit, live, study, invest and work."
