

HOSPITALITY

For the future you want

The Scottish Hospitality Industry is hugely important to our economy and professional training makes sure all staff are practising the latest legislation and requirements.

Hospitality courses include Food Hygiene, HACCP (Hazard Analysis and Critical Control Point), accredited by REHIS (Royal Environmental Health Institute Scotland).

Most roles in hospitality require a record and understanding of food hygiene, whether you are working in a kitchen environment or at management level, having a food hygiene qualification is important for your employment and development.

We also provide Personal Licence Holder qualifications, required for all employees who sell alcohol in Scotland. Anyone who authorises the sale of alcohol to the public (as per the legal requirement in Scotland) is required to have a suitable qualification such as the BIIAB Scottish Certificate for Personal Licence Holders.

CUSTOMISED TRAINING

Although we provide hospitality courses we also create customised training programmes tailored to business requirements. Please contact us if you wish to discuss creating a tailored training programme for your employees.

Customised Training includes:

- Supervisor Skills
- Customer Service Excellence
- Cultural Awareness
