WELCOME

2016

Welcome to our Prize Giving Ceremony. These awards celebrate student achievements throughout academic year 2015/16. Across our campuses we are inspired by all the activities, end of year shows and events that demonstrate the talent

and worth of our students. It is the time of year when students focus more on the future and the next stages in their journey. For some that means continuing at college, for others it is about progressing to university or entering the world of employment.

Across our wide curriculum we have so many students who have excelled. Although we can only award prizes to a small number of them at this event these awards are a tribute to all students and staff who have given so much throughout the year.

Seeing our students succeed is a powerful reminder of why we work in further education and it's important to take the time to reflect on our students' progress. Further education does a fantastic job of supporting people to learn, develop and progress to great things. This can be challenging, often taking learners out of their comfort zone. Every day at the college students achieve tremendous things and we should celebrate them all, from huge scale end-of-year shows that are the culmination of all their work to succeeding in something that's been a unique personal challenge.

Best wishes to all our students of 2015/16. I look forward to learning where they all go on to. I'm confident they have a great platform to succeed in further studies or in the workplace.

Annette Bruton
Principal and Chief Executive

FRIDAY 10 JUNE
