

HAIR BEAUTY BARBER

PRICE LIST

Training Salons

Edinburgh College Training Salons are designed to give our hair & beauty students the best practical training. The salons provide top quality treatments with the help of quality brands like Elemis, Wella, Dermalogica and Crystal Clear.

Students cover a range of levels and services priced to reflect their experience. Junior stylists are studying SVQ level 2 courses, our senior stylists are training as part of SVQ level 3 course and our graduate stylists are working towards their final year in HNC or HND courses.

The Edinburgh College Training Salon at Granton and Milton Road was created to give students the opportunity to train in an industry leading environment before they graduate. Partnering with Elemis, Dermalogica and Wella allows us to offer the highest quality well-known spa treatments at great value prices. Try our flotation therapy or iconic Elemis facial and body treatments (flotation only available at Granton campus).

We are also excited to open our new aesthetic skin clinic covering the latest beauty treatments including microdermabrasion, diamond peel and cosmetic skin peeling. Along with the latest advanced non surgical face lifting technology and anti cellulite body treatments. Also new this year is The Treatment Lounge at our Milton Road Campus, offering quality beauty treatments from our industry-ready students.

The Edinburgh College Training Salon at Granton incorporates luxury hair treatments with environmental benefits, as one of the UK's first eco-friendly college salons. Features include ceramic fuel cell, hot water recover and led lighting to save energy, mobile air filters suitable for asthmatic students & clients.

New Beauty Treatments

NEW BEAUTY TREATMENTS

Training Salons

NEW ADVANCED FACE

& BODY TECHNOLOGIES 60 mins £25

(available Thursday evening- HND 2nd year)

NEW ANTI-CELLULITE PRESSURE MASSAGE

This advanced pressure massage offers a variety of applications ranging from treatment to help improve cellulite, impaired blood circulation, accumulation of waste products, oedema and varicose veins.

The treatment offers 4 pre-set programs which allows the therapist to select the optimal treatment for each individual client.

NEW NUDERM 6 IN 1

NON-SURGICAL FACIAL 60 mins £120

2 Therapies	£25
3 Therapies	£30
4/5 Therapies	£35
6 Therapies	£40

The Nuderm System is by far the jewel in the crown when it comes to non-surgical technology. Encapsulating all the essential elements that are needed to offer clients the most up to date non-surgical procedure on the market today. You can indulge in the full 6 therapies in a single treatment or choose from the following - (minimum of 2 therapies per treatment for optimum results).

THERMOTHERAPY

What a fantastic way to start any aesthetic procedure, the warmth not only feels great, but also has many therapeutic properties.

MICRODERMABRASION DIAMOND PEEL

Microdermabrasion is one of the most popular treatments available in today's market.

It will transform your complexion and enhance your own natural beauty due to skin resurfacing.

ULTRASOUND

Ultrasound will increase the synthesis of Collagen and Elastin (Proteins) and renew damaged tissue.

Due to the internal heat emitted from the hand piece the metabolism of the cells will change the PH levels of the skin to a more alkaline state aiding in the absorption of various topical products.

NON-SURGICAL FACELIFT

You will see a noticeable and immediate lift after only one session, micro current is used to lift and tone. Sometimes this can be slight, however on most occasions a dramatic visible lift is achieved.

CRYOTHERAPY

Cryotherapy is perfect after microdermabrasion to soothe, calm and reduce the appearance of any Epidermis. Cryotherapy is the last treatment to be performed using the Nuderm Skincare system as the use of the low icy temperature will soothe, calm and reduce the appearance of redness on the Epidermis after treatments such as Microdermabrasion or Micro current.

NEW BEAUTY TREATMENTS

Training Salons

LED LIGHT THERAPY

4 key spectrums of light that will have a long lasting effect on the epidermis. Red, Green, Blue and Yellow Wavelengths available.

NEW ELITE RADIO FREQUENCY

ANTI-AGEING FACE

& BODY THERAPY

60 mins £30

(PER AREA)

This treatment emits a Bi-polar Radio Frequency wave that will increase skin temperature, stimulates the production of Collagen and encourages the contraction of skin fibres.

This warming effect increases Collagen production and stimulates fibroblast tissue cells.

The skin regains flexibility and firmness, becomes tighter and results in a visible reduction in fine lines and wrinkles. The facial contours are re-defined. The Duo radio Frequency can be used on Face and Body treatments.

A promotional image for spa sessions featuring a close-up of a purple orchid flower and several smooth, dark grey spa stones. The text is overlaid on the image in a clean, white, sans-serif font.
